Scope and Content:

The Howell Family Genealogical Collection consists of research materials documenting the John and Mary Howell Family of Aberystwyth, Wales who settled in Virginia and their descendants. While the most of the collection focuses on Virginia Howells, the collection also consists of Howells throughout the United States. In addition to family group sheet, charts and publications, this collection also includes handwritten notes by various members of the Howell Family, presumably contacted by the compiler. Research appears to encompass dates from the late 1600s through the early 1990s. Also included are Volumes 1-4 of the Job(e) Journal, a quarterly periodical published by Bill Jobe of Studio City, California.
