Historical Note:

City Marble Works, then Marsteller Marble Works, later Marsteller Corporation was founded in 1887 by John Hartman Marsteller. Originally located at 503 S. Jefferson Street, a new building was constructed in 1897 at 21 Campbell Avenue SE. In 1910, Marsteller purchased a plant operated by J.I. Van Ness in Lynchburg and opened a second location. The family-owned business specialized in monuments, marble, and stone building supplies. Business extended throughout Virginia, West Virginia, North Carolina, Tennessee, and Kentucky. It would later shift its emphasis to industrial flooring and wall-coating systems. Marsteller Corporation was forced into bankruptcy in 1992.

Biographical Note:

John Hartman Marsteller was born in Richland, Pennsylvania on 10 February 1866. He took an apprenticeship at age 17 to learn the trade of granite cutting. In 1887 at age 21, Marsteller moved to Roanoke and opened City Marble Works shortly thereafter. The business proved successful, opening a second location in Lynchburg in 1910. Marsteller was the National President of Memorial Craftsman of American from 1916 through 1919 and served in various roles on a number of boards and civic organizations in Roanoke. An automobile enthusiast, he took a deep interest in the good roads movement and the improvement of local highways. He entered a car in the 1910 Atlanta Journal-New York Herald Good Roads Tour and the Glidden Tour from New York to Jacksonville in 1911. J.H. Marsteller died on 7 May 1929. The Marsteller Corporation would remain a family-owned business until its closure in 1992.

Scope and Content:

The Marsteller Corporation Records Collection contains acknowledgements of orders placed for grave markers. Orders in this collection begin in 1911 and continue through 1960; missing orders include the years 1915 and 1916, 1920-1924, 1938-1941 (surnames A-J). It is important to note that the year in which a marker was ordered does not necessarily indicate year of death. In many cases, markers were ordered years after an individual passed. Orders often contain the following information:

- Name of decedent
- Date of birth
- Date of death
- Burial location
- Cost of marker
- Name and address of the individual who ordered the marker

Many orders contain more than one marker. In some cases, orders contain information regarding military service and familial relationships to the decedent. The earliest known date of birth contained in this collection is 1754. The latest date of death is 1960. While the majority of records contain complete dates of birth and death, in some cases this information was not known or provided at the time the marker was ordered. Unknown dates are indicated in the container list by NG (not given) in the appropriate column.

The records are physically arranged first chronologically by order year and then alphabetically by surname. In cases where orders contain more than one surname, they are filed under the surname used by the Marsteller Corporation. For example, the surnames 'Smith' and 'Adams' appear on the same order, but they are filed under 'Adams'; the container list indicates in which box and folder the information can be located.

With the exception of two bound volumes, 1911-1914 and 1917-1919, records consist of loose pages. In an effort to better preserve the records, loose pages were removed from post-bindings and arranged as they were kept by the Marsteller Corporation in folders. When using the collection, please maintain the order in which records are kept.
