THE ADDISONIAN

R

Approaching the day of graduation, we, the Senior Class of 1959, wanted desperately to have an annual to remember our wonderful high school days. The difficulties and problems we faced made us aware of our responsibilities and the necessity of growing up.

Children cannot govern the world, solve problems, meet obligations or even accept responsibilities. This is what we must face next; but if we fail to grow up, and mature, the condition of the world and mankind will be our fault. Facing reality can be a problem if one isn't prepared or doesn't know what to expect.

"Life is real!" Every stage of life is important. Each incident, every experience is a step up the ladder toward an enriched and fulfilling life, but one must not fail to remember that these steps are real and not dreams.

"Life is earnest!" Surely, dreams are wonderful, but they must develop into intentions, then into plans in order that they might be fruitful. The world and life are not based on dreams but on hard facts — reality.

Once rockets, missiles and satellites were a dream. Yesterday they became plans. Today they are a reality.

Tomorrow, must come, and we, the Seniors, must be prepared to face maturely and realistically whatever it brings. Remember our todays are the blocks with which we build tomorrow. We must possess an unchanging purpose in a changing world.

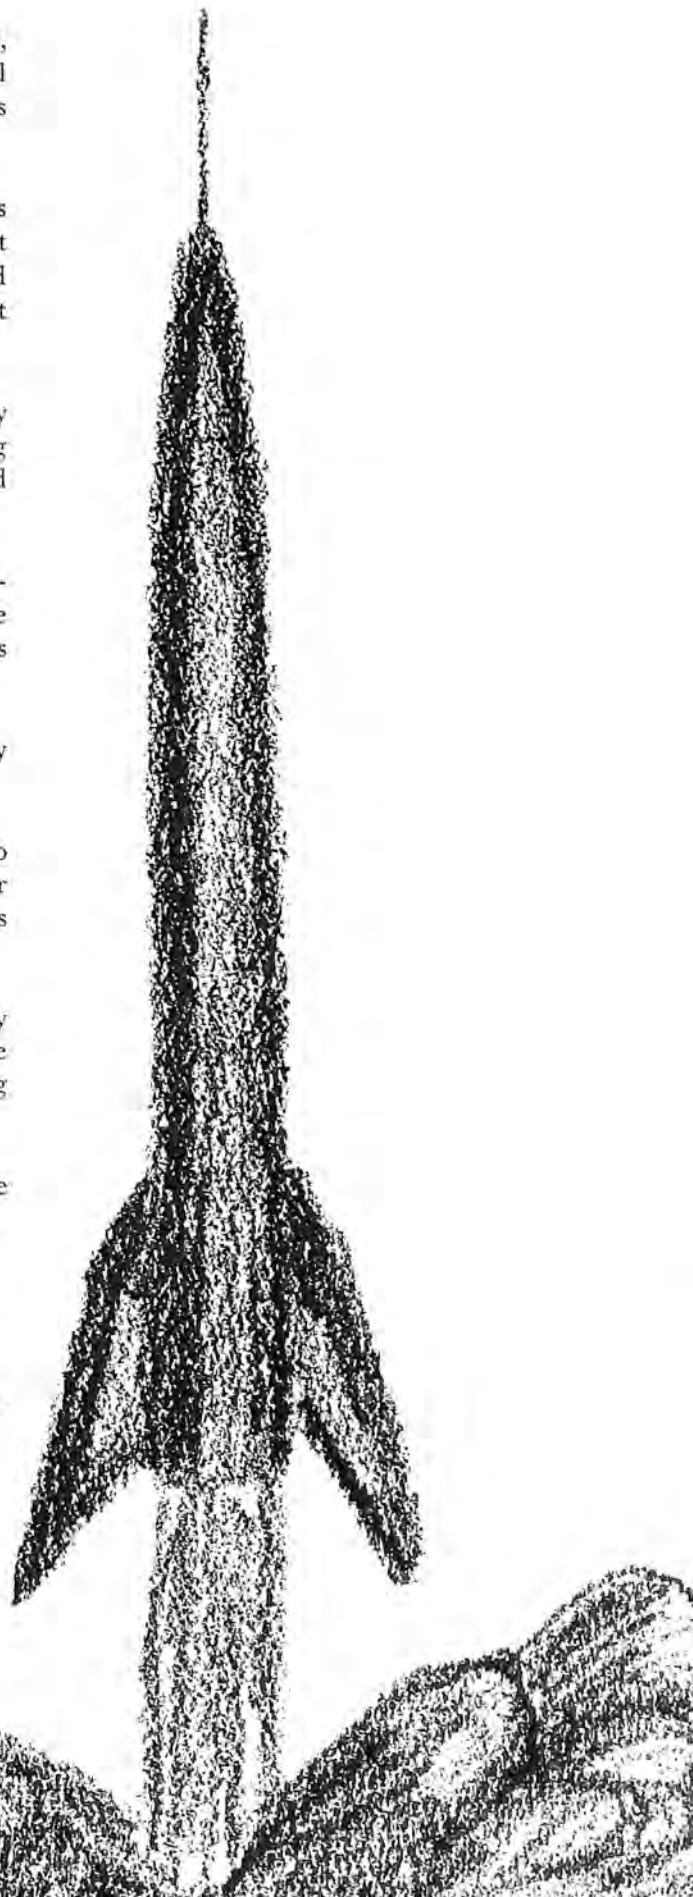

Through communication and transportation the world is rapidly becoming smaller. Realization that the world is smaller and that life is the reality which we now confront, will prevent us from meeting tomorrow unprepared.

I feel confident that as stand we on the threshold of adulthood, we will succeed in facing reality, tomorrow and life.

*Hail to thee, our Alma Mater
Guardian of the right
Our footsteps will never falter
Guided by the light.*

*Our strong ban can ne'er be broken
Formed in Addison High
Four surpassing wealth unspoken,
Sealed by friendship's tie.*

*Alma Mater, Alma Mater
Thee we will never fail.
Loyal sons and loyal daughters
Addison, all hail!*

Dedication

To Mr. Ralph Coleman we, the Class of 1959, dedicate this edition of the Addisonian. Mr. Coleman laboured strenuously to make this book a reality. For his untiring efforts and understanding heart, this is just a small token of our deep appreciation. We will never forget the time and energy you gave to make us successful in our endeavors.

Administration and Faculty

H. P. Rindler

For earning the distinction of graduation from high school, I salute you. You have attained a worthy objective, and I have faith in your future endeavors as you strive toward higher goals for yourselves and for others.

This "Commencement" for you is truly the beginning of a richer, fuller life. I trust that you will continue to be true to the ideals which have guided you so well throughout your public school experience. As you leave high school, I wish you God-speed in every undertaking for the benefit of your fellow man.

"I will be a man among men; and no longer a dreamer among shadow. Henceforth be mine a life of action and reality!" — Longfellow

Fantasy, daydreaming, air castle building, all play an important role in the process of growing up. Time, a necessary element in this process of growth, brings changes as well as realization of dreams. Your dream of high school graduation is now a reality because with the passing of time and diligent labor, you have reached a desired goal.

Where do you go from here? The answer to this is dependent greatly upon important decisions you must make now. Careful evaluation of your interests, aptitudes, abilities, and opportunities will determine to a great degree the decisions you make now. Regardless of what road you decide to follow from this day on, the way in which you solve today's problems or make today's decisions foreshadows the type of citizen you will become and the type of contribution you will make to your community.

You must be alert in taking advantage of every opportunity for good that comes your way, willing to work hard for that which you need to fulfil your ambitions and desires and willing to practice those policies of character which will enable you to live in harmony with your fellow man.

May you approach the future with confidence.

Reality in Retrospect

In the fall of 1955 two hundred fifty students full of enthusiasm and extreme ideas entered Lucy Addison High School with their hopes high for success in the coming years. We soon found out, however, that we would have to work hard if we were to obtain our goal. This goal was to finish high school and meet the future better prepared. We were a joyous group and from the very first participated in the many events and activities of the school. Arthur Brown began his wonderful and rewarding career in sports. The officers of our freshman class were: president, Shirley Richardson; secretary, Patricia Thompson; asst. secretary, Gloria White; treasurer, Antoinette Crichton.

Then the day came when we were "wise" sophomores with new aspirations and ambitions. Our class officers were: president, Don Pullens; vice president, Arthur Brown; secretary, Marjorie Morris; asst. secretary, Kathleen Hackley; treasurer, Antoinette Crichton. Our sophomore year turned into an eventful one when Brenda Manns was crowned "Miss Homecoming." On Honors' Day many of our students received awards for jobs well done.

How elated in spirit and proud we were that following fall when we were juniors! Carefully, we elected our class officers who were: president, George Hooper; vice-president, George Hunter; secretary, Carolyn Walker; treasurer, Antoinette Crichton; business manager, Ruth Hancock. After working diligently for two years Gloria White, Antoinette Crichton, Marjorie Morris, Shermona Kasey, Patricia Moore, and Kathleen Hackley were inducted into the National Honor Society.

Ruth Hancock served as an attendant to Miss Addison.

New Year's Day of 1958 was saddened by the death of our beloved classmate Dorothy Stuart.

How proud we were when our classmate Antoinette Crichton finished high school in three and a half years.

The Junior-Senior Prom with the theme "Kismet" was a success.

Shermona Kasey, Patricia Hayes, Kathleen Hackley, and Gloria White were chosen by our sponsors to serve as heralds for the class of '58. During this year we missed several old faces. Many of our classmates did not see the value of completing their high school education; consequently, they failed to return.

Finally the glorious day arrived when we were "Seniors!" We thoughtfully elected our present officers who are: president, George Hunter; vice-president, William Petty; secretary, Kathleen Hackley; asst. secretary, Gloria White; treasurer, Melvin Bethel; business manager, George Hooper.

Cassandra Gilmore and Rosalind Johnson were inducted into the National Honor Society.

Constance Law was elected by the school as "Miss Addison" and Edith Charlton served as her attendant. Rebecca Francis was homecoming attendant.

Arthur Brown and Clyde Singleton were co-captains of our football team. John Scales, Arthur Brown, and Leon Bonds served as co-captains of our basketball team which ended the season with an 18-3 record.

Wanting to look over our early memoirs of our high school, we decided to publish an annual. We, as seniors, shall be grateful to our parents and sponsors for helping to make this annual possible.

We have come a long way in the four years we have been in high school and wish to continue going the successful way in years to come. Although our hearts are full of happiness, we still feel a little sadness because we know, on leaving Addison, we shall separate from our dearest friends. Some of us will go to college; many others will enter various fields of work. Regardless of what we do, the seniors of "1959" will be wishing one another success.

Realistic Predictions

August, 1969

Dear Diary,

I still can't believe that everything that has happened to

me today wasn't a dream. I left Florida this morning at 8:20 for my trip to the moon. I had been told that the great astrologer, Lawrence Pinkard, could read the stars and would be able to tell me what field each of my former classmates of my high school graduating class had entered.

Before leaving Florida I toured "The Jet Engine Mechanics Building" owned and operated by George Hooper, Jr. Some of Mr. Hooper's outstanding engineers were Donald Dickerson, James Dews, Herbert Clark, Joe Booker, and Harold Finney, all former classmates. Donald Dickerson was married to Bobbie J. Hunt, who had only recently opened a Beauty Salon.

I boarded a rocket and was on the moon within 6 short hours carrying on a conversation with Mr. Pinkard. He left me with his private secretary Edna Minor while he terminated assembling his materials. Miss Minor showed me around the vast planetarian. When Mr. Pinkard was ready he called me in. Sitting behind an extensive telescope this is what he saw and how it was told to me.

Washington, D. C. — It seemed the very prominent lawyer Mr. Richard Leon Murphy and his favorite secretary Miss Dorothy Caldwell were taking over all of the business in D.C. Besides being a very prominent lawyer he owns the controlling stock of the New York State Distributing Co. Rebecca Francis is working here as a social worker with Carrie Hampton. Miss Hampton is now Mrs. Harold Finney.

Working in the Pentagon as secretary was Willie Mae Martin. Hollywood, California — In the Commercial Arts Department of MGM Studios were two of the most brilliant young artists of our day, Marvin Poindexter and George Jones. In his spare time Mr. Poindexter plays trumpet in a Cool Jazz Band conducted by John Penn.

Los Angeles, California — The L.A. Dodgers have a new pitcher, William Burwell, who is said to be very good. Also living in L.A. and playing the part of Mrs. Kasey was Beverly J. Kasey, loved and adored by her husband and children.

Detroit, Michigan — Rudolph Harvey is a Buick buyer and salesman. He has just sold a new 1969 Buick to Rufus Brown who is a technician for one of the large T.V. firms.

Houston, Texas — Guess who was thinking of wedding bells? Kathleen Hackley and William Petty. Kathleen received her degree in science from Fisk University and is in Houston working in one of the hospitals as a medical technician. William is a famed social worker who has traveled all over the world.

Seattle, Washington — Beatrice Smith had just opened her Beauty Shop; her partner and co-worker is Marion Saunders.

Columbus, Ohio — Teaching in the John Walker School for the Blind was Angela Clark. Nelson Reid is instructor of the corrective exercises there. Patricia Thompson and Brenda Manns have both joined their husbands. They are still the best of friends. Their little girls attend the same elementary school. Some of the teachers in the school were Edith Charlton, Martha Pittman, Shermona Kasey and Lottie Jones. George Hunter is a biologist in Ohio University. Occasionally he and Lottie run into each other.

Cleveland, Ohio — Natalie Glasby, Shirley Mitchell, Ann Thaxton, and Eva Stone are all private typists for the same company.

It seems Natalie owns a car and manages to go to Ohio U. quite frequently. Baroness Quarles is a diplomat and at the present she is managing the affairs between the U.S. and Russia. Benjamin Tyree is a mortician; it looks as though he and Baroness are still seeing each other.

Reno, Nevada — Gilbert March has received his Masters, and has set up practice. In City Hospital as the head doctor is Don Gabriell Pullen working side by side with biologist Sherdena Wormack. Some of the nurses are Mary Mayo, Wanda Ross, Patricia Ollie, Pauline Johnson, Donna Otey, Annette Johnson, Patricia Duckett and Jeanette Alexander. Rosalind Johnson who is a surgical nurse is said to be the best in the field. Deloris Powell is her assistant.

Phoenix, Arizona — There Evelyn Cooper is an elementary school teacher, only her last name is Taylor since she and Herbert, the mechanic, are married. Norman Vance is also an elementary teacher. In the High School as coach is Don Bethel. Lucille Dickerson is English instructor.

Minneapolis, Minnesota — In the University Hospital,

some of the outstanding X-Ray and Laboratory technicians are Carolyn Carpenter, Ronald Scott, Harry Stone, Harvey Jones, Constance Law, and Lou Robbin Roseborough. Constance is married and has twenty children. Also working in the hospital as the Head Dietician is Otha Wright.

St. Paul, Minnesota — It looked as though Melvin Long M.D. has a very good practice. His practice has increased so much that he had to hire two secretaries, Patricia Hayes and Shirley Parker. Working as a social worker is Sandra Hazard.

Honolulu, Hawaii — It seemed as though quite a few of my former classmates were living in Hawaii. Marjorie Morris is a biologist in the Robertson Research Plant. Patrick Campbell is working in the plant as technical engineer. Wendell Harbour and Basil Martin are the only two dentists in their community. Working as their secretaries are Darthula Barlow and Delois Simms.

Patricia Moore, the great dramatist, has just finished an eighty day tour of the world. Shirley Richardson is Miss Moore's private stenographer. John Scales is also working there. Patricia and Wendell are still seeing each other. Paul Scruggs and Clyde Singleton are both social workers. They are heading the list in the "C Cool Catagory." Robert Green is teaching secondary education in the school for girls. Gloria White is a medical Social worker and is very successful.

Atlantic City, New Jersey — Roy Dix is chief executive in the business firm owned by Byron Morris. Some of the secretaries are JoAnn Payne, Barbara Preston, Betty J. Harris, Yvonne Ross, Sybil Irving, Constance Moore and Rebecca Easley. Working there as social workers were Cecilia Davis and Gloria Walker. Brenda Price is a Nurse in the Hancock Hospital.

San Antonio, Texas — Lackland Air Force Base is the headquarters for some of my former classmates. Eugene Scales is a mechanic. Donald Lee, and Alfred Trayham are making a career of the service. Milton Hazzard is an outstanding engineer. Diane Smith and Barbara Saunders, living in San Antonio, have worked on many cases together as social workers and have visited many foreign countries. Richard Rice is also a social worker and working with Leon Bonds and Milton Rose.

Langston, Oklahoma — In Langston University Hazel Smith is a biologist and Cassandra Gilmore is a professor in elementary education. Miss Smith's secretary is Juanita Smith. Betty Hampton, Richard Ross, and David Roseborough are all teaching in the same elementary school. Barbara Stone has joined her husband and they are living very happily with all of their children. Ernest Green, outstanding psychiatrist, has been consulting another psychiatrist.

It looks as though his latest wife "Petite Betty" has him worried.

Roanoke, Virginia — It seems as though Burwell Memorial Hospital has a new staff of nurses. They are Mildred Grogan, Levonita Taylor, Barbara Harris, Ernestine Duckett, Patricia Ann Thompson, and Eula Mae Thomas. Patricia Johnson had just flown in; she is an airline stewardess and has traveled all over the world. Jacqueline Webb is also an airline stewardess. Last, but not least, Delois Harper and Francis Barlow are married to very nice young men and have good jobs.

I thanked Mr. Pinkard very much for his services and returned home. Upon arriving home I found an invitation to the party of the month given by Miss Patricia Moore at her summer home in New York. All of the former members of the Debonnaires and Imperial Knights Social clubs were cordially invited.

Well, Diary, in order to be on time in the morning on my job, as Laboratory technician at Miami University, I must get some sleep.

A Realistic Legacy

- I, Melvin Bethel, do will Ronnie March a jet so he can keep up with me, I'm gone.
- I, Roy Dix, do will my faithful teacher, Mr. Coach Price, a Hula-Hoop to reduce his hips so that when he dances he will be able to keep up.
- I, William, Campbell, do will Peter Jordan my gym clothes.

- I, Cecelia David do will my locker to Gloria Wingfield so that she will have more room for filing away her boy-friends.
- I, Rebecca Easley, do will Mr. Brothers a pen, so that he may continue to give zero to the "no worker" students.
- I, Carolyn Carpenter, do will the future senior boys a chunk of ice so they will be cool always.
