FREEDOM

Over the years of hardships,
Freedom has been man's need.
His struggles and his conquests
have helped to make his breed.

He tries to make this world a place
in which he can be proud;
For this he need not be in riches set,
nor in knowledge be profound.

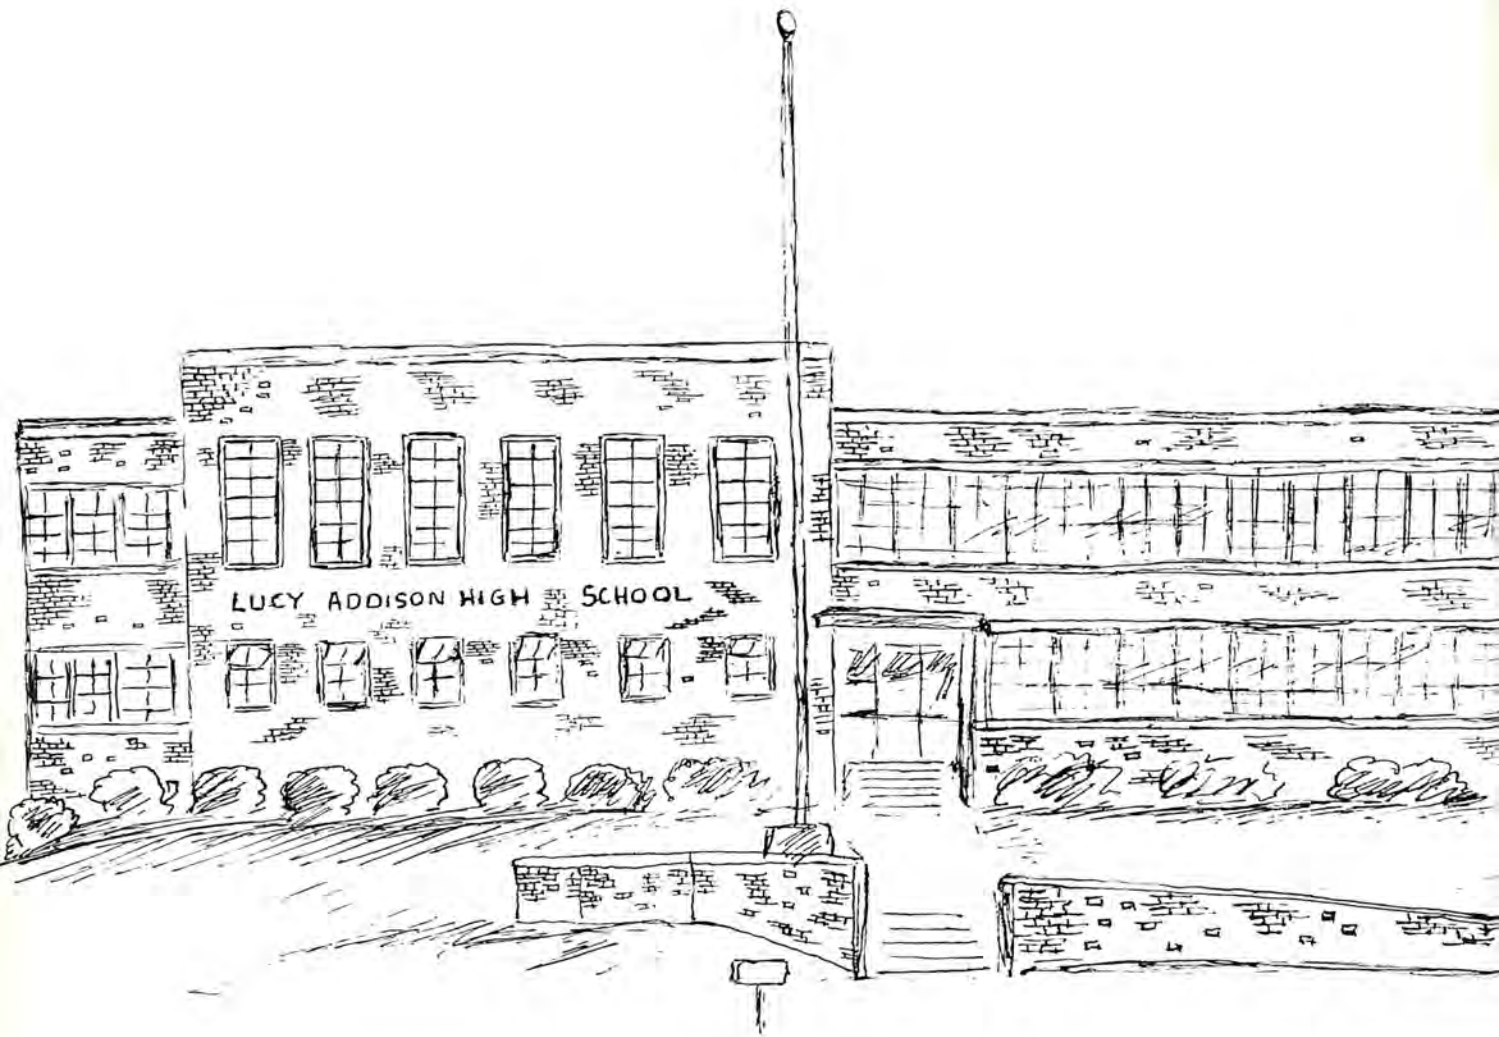

He understands this kind of life
and lives as best he can,
But satisfaction is yet to come
because, he's only a man.

The burdens and the tragedies
that still have come his way,
Have lit the lamps to make
men see that soon
will come a brighter day.

All of man's struggles will not
have been in vain,
One day will bring a
different life that makes men
all the same.

ROANOKE, VIRGINIA

EDITORIAL

As our high school years draw to a close, we look back with sincere regret upon the wonderful moments we shared as students of Lucy Addison High School. Because these four years hold some of the most cherished and impressive phases of our lives, the Annual Staff has tried to capture some of the outstanding ones of this year and immortalize them in this annual. However, in a larger sense, it is difficult - even impossible - to preserve many of the memorable events because they are intangible.

As you browse through this book, we hope that it will serve as a happy reminder of the "good ole days at Addison High."

We wish to express our gratitude to our principal, teachers, underclassmen and sponsors who helped to make this book possible. To Mr. H. L. Fulford we would like to extend special thanks because he has devoted so much of his time and talent in helping us prepare this edition of the Addisonian.

DEDICATION

We the class of 1964 are proud and honored to dedicate our yearbook, the Addisonian, to Mr. Henry L. Fulford. He has given unselfishly of his time and efforts to the promotion of this annual and to the entire school program. We know that he will never lose his cheering smile and friendly way.

PRINCIPAL'S MESSAGE

No man is entirely free, for every freedom we have a corresponding responsibility. We must respect the rights of others and use what freedom we have to enhance our own progress as well as that of our brother.

Education points the way to many avenues of freedom.

May you to continue to prepare for greater freedom and increased responsibility.

A black and white photograph of Independence Hall in Philadelphia. The building is a large, dark wooden structure with a prominent white clock tower and a dome. In the foreground, there is a large bronze statue of a man in a top hat, standing on a tiered stone pedestal. The name "BARRY" is visible on the pedestal. Several people are walking in the plaza in front of the building. The sky is bright and overcast.

In witness whereof we have hereunto set our hand and seal this Fifth day of June, nineteen hundred and sixty four.

RESPONSE - VICE-PRESIDENT OF THE SPA

With pride, we the students of Lucy Addison High School, as beneficiaries of the estate and effects of the Class of 1964, do accept this heritage. We accept it with the hope that some day, we can make the school as proud of us in our attempt to better ourselves as it is of you.

In your travels through life may all of your friends add, enemies subtract, sorrows divide, and joys multiply. You may leave us in body but in memory you will always be with us. God bless you and keep you forever.

Nurse: I'll call Dr. Walker

Mosby: Walker?

Nurse: Yes, Dr. Dwight Walker. You remember, don't you?

Mosby: Oh! Yes, of course, but hurry. My wife needs attention immediately.

Walker examines Mosby's wife, prescribes hospitalization, for a couple of days in order to run more tests. They walk to the coffee shoppe for a quick (Java) and then more rounds.

Dr. Walker: Mosby, you know I've been thinking that we should get our class together for a reunion.

Mosby: That's a great idea! Why don't we get in touch with some of the other class officers then?

Doc. Walker: I'll have one of my nurses, Beverly Poin-dexter to begin tracing the whereabouts of our classmates.

Mosby: Fine, shall we plan a meeting of officers for March!

D. W.: Okay. I've got to run now. I'm already 10 minutes late for my next appointment.

The class officers have been contacted and they have agreed to meet March 15, at Hotel Roanoke in a planning Luncheon. The meal is over and the meeting is being called to order.

Mosby: I believe everyone has had time to renew old acquaintances, I'll call the roll by the office you held.

Vice-President - Dr. Walker.

Walker: Here.

Mosby: Secretary - Jimmie Harris-Electrical engineer, eh?

Jimmie: Here, with pad and pencil.

Mosby: Fine. Assistant Secretary. Well, Lawyer Lawson.

R. Lawson: We want facts, Sir - nothing but facts.

Mosby: Okay "Perry Mason." And our treasurer, famous for the "Dot look," Miss Dorothy Jones.

Dorothy: Here.

Mosby: And finally, that "non-talking" speech therapist, who happens to be our business manager, Sandra Lawson.

S. Lawson: Here.

Mosby: Jimmie, please keep the minutes. You know the importance of this meeting. We are here to plan a class reunion for our dear old class of 1964. The first thing we have a find is a place suitable for the occasion.

In Unison: Agree.

Dorothy: I think this hotel would be fine.

Jimmie: Sure. We could use the Crystal Ballroom.

Reuben: I object: I think it would be more appropriate to have it at the school.

Dwight: Well, let's vote.

Mosby: Why don't we do this? Meet at the school, tour the building and reacquaint ourselves over lunch. Then,

that evening, go over to the Hotel for a big banquet and formal dance following commencement.

Sandra: You know that's great; and I think it would work.

Jimmie: I'm with that idea.

Reuben: I'll accept that.

Dorothy: Well, that's settled. I suggest that we contact the school, now, and get the date of commencement.

With this information we can make definite arrangements with the management of the hotel for the use of the ball-room.

Jimmie received the letter from the principal stating that commencement will be June 5, 1974. Later the committee sets June 5, 1974 from 9:30 p.m. until, for the grand occasion. Jimmie and Reuben agree to notify all the other members of the class about the reunion.

Dwight and Sandra agree to make arrangements for lunch at the school and for the banquet at the hotel. Dorothy and Richard promise to handle the financial aspect for the undertaking. By April, everything is set, everyone has been notified and the R.S.V.P.'s are coming in. Finally, the big day arrives.

This reunion will now come to order. Fellow classmates of 1964, we have gathered here - boy, you guys have changed! Hey, group, look at ole Doc Walker over there, beard and all! As president of our class of '64, I, Richard Mosby, have brought you "strangers" together after ten long years to reminisce about the "good old days." Terry Welcher, You know, if I didn't know your names, I could have passed you on the street without a glance. Take for instance, Cheryl Walker, a full fledged nurse, and Jimmie Harris - that guy shocked me. He and Thurman Foy have become electrical engineers; and Calvin Beale's hound doctor. Who would have thought that Beverly Turner and Shirlene Green would be pushing pencils as secretaries? --- I'll dispense with my talking and we'll get on with the fun, and merriment. Before we begin dancing, if you remember how, let's let everyone say in a couple of lines what he's been doing these past ten years. We'll start with Charles Neal.

Charles Neal: Well-uh, first of all, I want to say I'm happy to see so many of you - not counting those I see regularly at my casino. And my old friend -The "Little Lawyer" - man, you've moved up into money.

Reuben Lawson: In this work all you do is set your price. After a couple of cases you're on easy street - not like my friend Sandra. Tell us about your work, Sandra.

Sandra Lawson: I'll tell you this, being a speech therapist hasn't put me on easy street; however, my work affords rewards other than money. But Theodore -

Mosby: Excuse me, but did I tell you Theodore designed the planes that brought some of you here.

Theodore: Well, I haven't broken any sound barriers yet, but I'm still flying high.

Mosby: I haven't seen many delinquent children around. Since you girls set up office, Sara, tell us who some

other social workers are.

Sara: Well, to my left are, Wilma Powell, Mary Brown, Jennifer Morgan, Mildred Lawrence, and to my right is Jacqueline Madison. All of us are engaged in helping the many children that we have, and those to come to adjust to this Atomic Age.

Mosby: We've heard from the social workers, how about a word or two from the stenographers?

Shirlene: Well, Richard, as I've been elected spokesman or spokeswoman for this varied and large group of secretaries, I am proud to let you know that Ernestine Petty has been elected "Secretary of the Year 1973," and who but Barbara Flippen and Mildred O'Neal were especially chosen by the president to work on his White House Staff. This may also shock you, but one of our girls, Irene Davis, the world's best stenographer, has devised a new system of shorthand. The new best seller, The Life and Loves of a Private Secretary, was written and edited by the incomparable Janet Bumpers, Sandra Waid, Beverly Turner, and LaVerne Jones, all products of the Class of 1964. We, the secretaries of today from seniors of yesterday, thank you.

Mosby: I believe that several school systems are represented tonight. John Kasey, tell us who some of these teachers are and where they work.

John Kasey: Well, I'm a P.E. teacher in New Jersey, James Earl Jones is working in Connecticut. Diane Williams has a 6th grade class in Greensboro. Gus Vaughan and Don Tyler are instructors in a boys' school in Seattle, Washington. Beatrice Cater and Brenda Ross are high school instructors in Newport, Rhode Island. Leon Tucker and Ralph Fleming are teaching right here in Roanoke. Elizabeth Brown is teaching at Stratton High in Beckley, West Virginia, and Delores Dudley another 6th grade teacher in Los Angeles, California.

Mosby: You sure have traveled. I can't help but notice the hair styles of these lovely young women. I'll bet our cosmetologists are responsible for these works of art.

Shirley Crowder: As most of you know, I have my own shop with Marion Hurt and Yvonne Hayes as my assistants. Mary Cooper, Constance LaPrade and Theresa Williams are stylists in New York. Dorothy Jones has a chain of salons on the West Coast. Shirley Ruffin and Mary Bowe have been signed as stylist for a fashion house in Los Angeles.

Mosby: I didn't realize we had so many successful people here. Uncle Sam employs some of you I know. How about you telling us about it, Moon.

Clarence Hamlar: I'm in the Air Force. Claude Minter is a Marine Officer. George Grogan, Barbara Fisher, and Betty Warren are civilian workers for our "dear Uncle."

Mosby: Now, who are some of our beautiful nurses?

Gale Hale: Speaking for Elnora Burrell, Gail Hobson, Mildred Fields, Sylvia Hairston, Mary E. Morgan and myself, Gale Hale, we have all become "Angels of

Mercy."

Mosby: Terry Welcher, tell us about your pill pushing.

Terry Welcher: Well I haven't killed any germs lately. I'm still an intern at Johns Hopkins.

Mosby: This is interesting. Jean Hale, give me a run down of who's doing what at your end of the table.

Jean: I'm employed by Marilyn Pannell as Physical Therapist in her rehabilitation center. John Reynolds is a carpenter, Margaret Willis is a mortician, Robert Clements is an electrician, Wayne Taylor and Andrew Anderson are architects. Sandra Barlow and William Cooper are free-lance artists.

Mosby: Thank you, Jean. Paul Harris, tell me about those seated near you.

Paul Harris: Okay, I've got my own garage and electrical shop. John Law and Monte Starkey are my right hand men. Melvin Smith is the head of my electrical department. Clarence Turpin, Arthur Gravely and Thurman Foy are engineers in Oregon.

Mosby: I didn't realize we had so many varied occupations and professions represented here. By the way whom do you think has the most unusual job?

Nancy Jones: Emmett and I are probably the only ones who work with I.B.M.

Mosby: It's absolutely amazing that only two out of a class of 160 are I.B.M. operators. We have in our midst a very illustrious author, the writer of many interesting novels, Miss Dinah Smith.

Mosby: Say, Jimmy Johnson, what have you been doing for yourself?

Jimmy: Oh! Not much, I just live in the same neighborhood that Billy Cooper and his wife, and Mary St. Clair and her husband do. Just a hard working Joe, that's me.

Mosby: Gary Ware and George Jones, how is the field of Sociology working for you?

George: It's a mighty interesting field of endeavor, and "the green is far from the lean."

Sandra Fizer: Last January I began my internship as an Obstetrician in Bellevue Hospital in New York and you know Dr. Dwight Walker is working here, in Roanoke Community Hospital. Gloria Jones is a Certified Public Accountant in Washington. Leroy Calhoun has followed in father's footsteps as a craftsman.

Mosby: Our last Doctor will never have to worry about his patients' complaints, or whether his patients want a blonde or brunette nurse. But he will have to worry about whether his patients like Gravy Train or Gaines. Dr. Calvin Beale.

Calvin Beale: I have my own clinic with 4 nurses and 2 assistants. By the way all of you bring your pets to me. I'll leave some of my cards at the door.

Mosby: Now that everyone has been introduced and we have filled our stomachs with turkey with all of the trimmings, let's stand, sing the Alma Mater, and chat before retiring to the ----- and dancing.

CLASS HISTORY

Class History

We, the graduating class of "1964," have finally reached the rung of the ladder of success to which we have aspired for the past twelve years. This first rung will lead us into active participation in the workaday world or into the realm of higher education.

As starry-eyed and wonder struck freshmen, we took our first step into the world of our tomorrow, knowing not the many and varied obstacles to be encountered on our four year journey.

During our freshman year, we discovered that we had to have twenty units to graduate whereas the classes that preceded us graduated with only sixteen.

The realization of becoming "guinea pigs" brought about a change in our study habits. We were the products of a new style of education known as programmed learning. This included such subjects as Spanish, French, Latin, Algebra, Geometry, and Trigonometry.

One of the highlights of this year was the crowning of a freshman, Daynette Bumpers, as "Miss Homecoming."

Bewildered and dazed, we entered our sophomore year reflecting on the past year and entering with trepidation the new year. One of our classmates, Steve Wright, received a scholarship in tennis to Arkansas State College. Otherwise, this proved to be our silent year so far as outstanding activities or projects were concerned.

The third step of our journey landed us in our junior year. Everyone will remember that year with pride because we began to find ourselves academically.

We had six persons inducted into the Addison chapter of the National Honor Society.

Many new ideas were instituted during our junior year. The IBM system was introduced so that it would be easier for our instructors to record grades and keep records.

With the purchase of our own station wagon, our transportation problem was reduced to some extent.

Our major project for the year was the annual prom given the seniors by the juniors. We gave them what we considered a "whing-ding" of a prom. The theme of the prom was, "An Evening In Paris." We had a large painting of the Eiffel Tower and tables were set up as though it were a sidewalk cafe, with six "French Maids."

After many trials and tribulations, we reached the goal that we had been struggling so hard so attain. We became SENIORS! During this year more new ideas were begun. Among these was the Tutorial System whereby students from Hollins College came and assisted Addisonians in the areas of history, mathematics, and English. We are quite enthusiastic about having a track field started as the first step in the development of a full athletic program.

Never before have we been faced with such problems as now. The tragic death of our president had a most sobering effect on the student body. We began to re-examine our values. Among our problems are the college we would like to attend, the privileges we would like to have, the ideas to be used in the Annual, and more than anything else - our ratings.

Although we have not written any outstanding chapters in the history of Addison High School, we are not unaware nor unappreciative of the rich legacy we have received here. As we leave, we will endeavor to bring honor to our Alma Mater, our homes, and our country. Only time will reveal the impact made upon our lives here at Addison.

Opportunities Like Edison had
are **WAITING FOR YOU**

The inventions of Thomas Edison have affected the lives of people everywhere. They have created entire industries — ours, for example.

Under America's Free Enterprise system, inventive people like Edison can expect special compensations — profit, honor and satisfaction.

The hope of attaining such rewards has been one of our nation's greatest incentives to progress. It is a goal that prods imaginative minds in their quests for new products and methods.

Not everyone can be a Thomas Edison. However, every trained, dedicated graduate can anticipate a full measure of our society's rewards. All it takes is a willingness to work harder and contribute more.

ACKNOWLEDGEMENTS

Publishing this Annual required cooperation. One man could not have possibly accomplished the task alone. We command the staff - Marilyn Pannel, Editor, Sara Reynolds, Claude Minter, Mary Stewart, Delores Dudley, Bernice Flowers and Sandra Waid. Constantly seeking to improve the publication, required hours of concentrated thought.

We cannot close the book without mentioning the splendid work of the Advertisement, Patrons, Photography, History, Prophecy and Wills Committees. The cooperation of the student body with special thanks to Constance Thomas, Charles Hurt, Donna Welcher, Elizabeth Brown and Thurman Foy, the encouragement of the faculty and the splendid support of the Administration were priceless.

Now as the class of '64 leaves, saluting and thanking these persons for their work and loyalty, we hope that every reader will enjoy this book, now and in many years to come.
