Miss Mattox

Dedication:

To that teacher who has not only taught us the brighter paths to the knowledge of the world of numbers but who has traveled part of the way with us; to the teacher who has studied much, seen much and doubtlessly felt much, but with all this, a teacher who has never lost her sense of humor. To one who has guided us through her high sense of morality. For every laugh, for every service and for every one of the thousand things she has done, we are indeed grateful. To you, Miss Mattox, we dedicate this, our 1975 annual with all well-deserved admiration and respect.
