1980 Stonewall Dedication

When selecting a person for the dedication for the "Stonewall", the Publications Staff looked for many qualifications in an individual. The following criteria was established in order to choose a deserving person.

- Dedication to the School
- Untiring energy in his work
- Understanding of students
- Integrity
- Fairness to faculty and students
- Smiling and pleasant personality

After much thought, the Publications Staff, decided that these qualities were shown in one special individual at Stonewall Jackson. This special individual can be seen in the halls, supervising the cafeteria, on bus duty, collecting picture money, setting up In-School-Suspension, attending ball games, checking on teachers or talking to irate parents. These are just a few of his responsibilities, but no matter what he is doing, or how busy he happens to be, the faculty and students always know that they will be received in a smiling and understanding manner.

In order to show our appreciation to this dedicated administrator for all his hours of work and understanding, the students of Stonewall Jackson would like to present the 1980 "Stonewall" to
