THE PRESIDENT'S MESSAGE

Make your plans now to attend our annual workshop of July 17, 1982. There will be TWO EXCELLENT SPEAKERS.

Bill R. Linder of Vienna, Virginia, is director of the Central Reference Division of the National Archives and General Chairman of the National Genealogical Conferences in the States. He is the author of the book, How To Trace Your Family Tree.

Peggy S. Joyner (Mrs. Douglas) of Portsmouth, Virginia, a certified genealogist, has published two genealogy books and is a genealogy instructor at Old Dominion University in Norfolk. Her special interest is early German records of Pennsylvania, Maryland and Valley of Virginia.

The membership chairman reported a total of 535 members in our society on March 20. Our regular monthly meeting will be held at the Jefferson Street Baptist Church until the construction work has been completed at the Roanoke City Public Library.

John Bullock, Art Instructor at Salem High School, was the speaker at the March meeting. His subject was "Heraldry." Mr. O.E. Pilson of Ridgeway, Va., will be our speaker April 17. His subject will be genealogy sources, some families and interesting cemetery searches in Henry and Patrick Counties.

Mrs. Fowler (Babe) will be attending a Virginia Genealogical Society Spring Conference in Richmond on April 16 and 17. We look forward to her report.

Belva M. Counts, President.

HERALDRY, THE ART AND SCIENCE OF BEARING ARMS

contributed by
John F Bullock, Jr.

"Azure a chevron argent between three mullets of the second." That is the everyday language of the heraldic artist, the artist who specializes in HERALDRY, THE ART AND SCIENCE OF BEARING ARMS. This language is descended from an archaic French which, in this case, describes a coat of arms of the Hilliard family. In translation, this describes a blue shield with a silver chevron between three silver star-shaped figures. The chevron takes its shape from an ancient roof-tree and is frequently borne by those who have built fortresses or churches, and the star-shaped figures refer to the rowel of a knight's spur.

In heraldry colors as well as figures have a significance. In this case, blue denotes truth, loyalty and patriotism, while silver is symbolic of purity, peace and sincerity.

There are five basic colors used in heraldry. They are red, blue, green, black and purple. In addition to these basic colors, the metals silver and gold are also used. The color of some charges or objects found on arms is described as "proper." This means that they are shown in their natural or normal colors.

In British heraldry especially, most coats of arms consist of at least one of the five basic colors and one metal, displaying either a colored object on a metallic background or a metallic object on a colored background. The main reason for this is that the shields were then easier to see, thus allowing the knight, dressed in full combat regalia, easy recognition by both his enemies and friends. Otherwise, covered from head to toe with a suit of armor and helmet, the knight could never be identified.

The term "coat of arms" very logically derived from a fabric coat or cloak the knight wore over his suit of armor. This coat displayed the same figures and colors shown on the knight's shield. It served both to identify the knight and to protect his armor from the hot sun and cold weather.

The coat of arms as we display it today consists of the shield, the helmet, the crest, motto and lambrequin or mantling. Some are shown with animals or other figures on each side of the shield supporting it. The mantling - the design shown around the helmet and shield - represents the mantle or cloth-covering the knight wore falling from his helmet around his neck and shoulders. This also helped to protect his metal helmet from the hot sun and cold wind. The inside of the mantle is shown as the primary metal of the shield and the outside is shown as the primary color (being the cloth) of the shield. The divisions seen in the mantle represent the cuts and slashes the knight received in his mantle from his enemy's sword.

Who has the right to display coat armor? Technically, the countries where arms are actually granted, only the person to whom the arms was granted and his direct heirs could bear the arms. Since Americans cannot be granted arms by our government, we, in a manner of speaking, "adopt" the arms from

a known ancestor who had been granted an arms. In this case, one should have evidence of his family's connection to the original bearer of the arms. There are books that list American families which are directly descended from those Europeans who were granted arms.

Heraldry, in one sense, dates back to the dawn of the history of man, for when the first primitive man marked his crudely-made shield in such a way as to identify himself, heraldry was born. But the science of heraldry never reached its peak until the Middle Ages, especially during the Crusades (from 1096 to about 150 years thereafter), when thousands of European knights, footsoldiers, churchmen, and even kings, joined ranks to go to the Holy Land to rescue it from the infidel Saracens who had occupied it.

The French were primarily responsible for establishing the science of coat armor. Even today the descriptions of arms from which heraldic artists work, though in English, have retained the original sentence structure and many - now archaic - French words.

One outstanding continental European authority on coats of arms is J.B. Rietstap, while Sir Bernard Burke is one of the authorities on British arms. Some other authorities on heraldry are: Fairbairn, DeBrett, Wade, Boutell, Scott-Giles, Bolton, Crozier.

While the majority of continental arms were granted to royalty and the aristocracy, the British granted arms to nobility and commoner alike.

An interesting story, whether true or not, tells of a farmer working in his fields one day. He suddenly heard a lady's screams for help coming from the direction of a nearby stream. Upon arriving at the edge of the stream, he discovered a lady rider who, while crossing the stream, had been thrown from her horse into the water. In order to save her from drowning, he dashed into the water, grasped her by her riding girdle or belt and began to pull her from the water. In fear and desperation, she screamed to him, "Hold fast, hold fast!" while he pulled her to the bank and safety.

Since she was a lady of noble birth and from a family of high standing and influence, as a reward for saving her life, he was granted a coat of arms bearing three buckles representing the buckles on her riding girdle and a motto quoting, "Hold fast!"

Many coats of arms have a story behind them, and often, wherever possible, display figures making a play on the family name, such as the three bulls' heads on my own family coat of arms. Heraldry is both a fascinating and revealing art and science.

* * * * *

Where did that man come from? Have you followed the migrations routes back? These would include the roads and rivers. Would he have gone over a mountain or around it? More than likely around it. If the river was wide or deep, he would go down the river and not try to cross it.

(Note: This volume may be found in a law library. Originally these cases were tried in the local courts and appealed until they reached the Supreme Court. Most, if not all, of the original documents in the Supreme Court building in Richmond were destroyed by fire during the Civil War.

The appeals -- consisting of the case, plaintiffs, defendants, depositions of each and witnesses, lawyers' please, judges' opinions, and verdict may be listed. In some cases, the case may be only a half page or less and no genealogical information given. Another could be 60 pages and still no genealogical information, and in others a wealth of information may be obtained. Names, dates, places, etc. of genealogical value in the cases have been extracted and printed here.

Volume I has not been typed and proof read, but will be soon.)

SURNAME INDEX

VAN has set up a new (that is for us) system for surnames of our members. This year we will publish others that are sent to us during the year because of the early issue in which it is published. Next year it will be in only one issue. The abbreviations used are listed on a page in the back of VAN. The following format is used:

Name and address who is doing the researching:

CRAIG COUNTY, VIRGINIA
MARRIAGE RECORDS

The personnel in the Court House at New Castle, Craig Co., Va., told me that the following marriages were not recorded in the marriage register. I did not get a chance to check the register, so I do not know if any of them are recorded. During the Civil War, the Union Army was in New Castle and burned many of the books and records of the county. After the war, the Clerk of Courts reconstructed the record books -- no one knows how many records were not recorded because of ^{the} lost of original documents or death of the people involved.

Following is a list of abbreviations used in the article:

Types of marriage records.	Md - married
(A) Certificate to obtain a license	Min Ret - minister return
(B) Minister's certificate of marriage	o - occupation. If not given, he is a farmer.
(C) Marriage License - has A,B,&D	p - parents
(D) Minister Return	s - Single
b - born. If no birth place given, it is Craig Co.	w - widowed
Cr. - Creek	wit - witness
d - days	y - years
dau - daughter	res - residence. If not given, it is Craig Co.
Lic. - license	
m - months	

Please remember, if possible, get a copy of the original document -- I am no expert in reading the handwriting. I can come back later and decide that it should be something else.

The following is a copy of (A) Certificate to obtain marriage license, (B) Minister's certificate of Marriage, (C) Marriage License, and (D) the minister return has not been included because usually it was just a written note or included in the Minister's Certificate of Marriage.

Most of the older record books of Craig County are of blue paper and the ink has faded to a brown, so it almost impossible to zerox the pages. If copies are required of deeds, wills, etc., the records will have to typed. The marriage records copied should be easy to 'zerox' -- just remember that each type of document is a separate page.

New Castle (where the court house is located) is a small town and there are a couple of quick order places to eat. One is across the street and down from the court house and the other is on the edge of town. The clerk's office is small but the personnel were very pleasant (when I was there).

A Certificate to obtain marriage license (to be annexed to license)

Having applied to the Clerk of the county Court of Craig for a marriage License, and being requested, I make the following Certificate, as required by the Act of the General Assembly passed April 7th 1858.

Date of Marriage supposed 26 Aug 1858
 Place of Marriage Sinking Craig County Va
 Full Names of Parties Married John Zell & Mary Ann Looney
 Age of Husband 26 years
 Age of Wife 25 --
 Condition of Husband (widowed or single) Single
 Condition of Wife (widowed or single) Single
 Place of Husband's Birth Botetourt
 Place of Wife's Birth (Botetourt now) Craig
 Place of Husband's Residence Botetourt
 Place of Wife's Residence Craig
 Name of Husband's Parents Jacob & Sarah Zell
 Name of Wife's Parents W'm (?John) & Charlotte Looney
 Occupation of Husband - Farmer

Within 2 months after the Marriage shall have taken place, the Minister solemnizing the same, must certify the fact to the Clerk of the Court.
 (on back) James Looney wit.

B

GIDEON MACON OF VIRGINIA AND SOME OF HIS DESCENDANTS

compiled by

Aletha Jane Macon

The Macon family of Virginia began with Gideon Macon, and English citizen of French parentage, who became identified with the prominent people of the New World and founded a family which has played a not unworthy part in the history of our country.

The earliest definite references to Gideon Macon are found in the Court Records of York County, showing that he was attorney-at-law in the county as early as 1671. He was an Indian interpreter and served as secretary to Sir William Berkeley, Governor of Virginia, during his second administration which ended in 1677. It seems that Gideon Macon arrived in Virginia about 1670 and that he was at that time in his early twenties; so that the year of his birth was about 1648.

In religious affairs Gideon Macon seems to have taken an active part and is listed as one of the earliest vestrymen of Bruton Parish Church, which still stands in Williamsburg, Virginia.

He owned extensive acreage in New Kent, Henrico, and King and Queen Counties. About 1680 he married Martha Woodward of King William County. Gideon and Martha Woodward Macon were the parents of eight children, four sons and four daughters, Gideon Macon Jr., Anne, Martha, William, John, James and two daughters, whose names were unknown.

The first section of the book gives eight generations of the Macon family and one chapter of recent generations. The second section develops the Allied families of the Macon family which includes the families of Green, Grimes, Hunt, Jack, Jones, Thorn and Woodward.

There is a bibliography and an index of 46 pages of individual names. This is a revised edition of the 1956 Aletha Jane Macon edition by Arthur Jarvis Wood, Jr, 1979 and published by the Wilkes Publishing Company, Inc. 1981, Washington, Georgia. A gift copy to the SWVGS has been placed in the Virginia Room of the Roanoke City Public Library. The price of the book is \$20.00 and may be ordered from Mrs. Al Amundsen, 2 D Country Club Apts., Greenville, AL. 36037.

A PLACE APART
A BRIEF HISTORY OF THE EARLY WILLIAMSON ROAD AND NORTH
ROANOKE VALLEY RESIDENTS AND PLACES

by
Helen R. Prillaman

Mark Evans arrived in the Big Lick area and Roanoke Valley about 1744 from Pennsylvania. He married Katherine Thomas on June 17, 1723 at Christ Church in Philadelphia. With thousands of acres from which to choose, he took his time and chose well lying fertile land fed by gushing springs. He built his upended log home at Evans Spring.

Mark Evans died at Evans Spring in 1748 leaving his lands to three sons, Daniel, Nathaniel and Peter. His original grant was 1200 acres, but later by survey proved to be 1910 acres.

There are a number of descendants of the Evans family in the Valley. Mr Charles Burton of Botetourt County is a direct descendant of Peter Evans. Early owners of the Evans tract were James Breckinridge, John C. Griffith, Charles Johnston and William Watts.

Early families that followed and contributed to the area were Betts, Bushong, Campbell, Cannaday, Fellers, Fleming, Garst, Harshbarger, McClanahan, Moomaw, Nelms, Nininger, Oliver, Petty, Read, Rudd, Stokes, and Williamson (for whom the Williamson Road area is named).

Community builders of the Williamson Road area continued to arrive at the turn of the century. Some of the family names were Andrews, Bowman, Coulter, Epperley, Hansbrough, Huffman, Hunt, Lemon, Prillaman, Riley, and Woodson.

Miss Prillaman brings the early days of the area to life with her many pictures and sketches -- Black Horse Tavern and "Bellvue", The Barren's Mansion, Guildhall, "Greenridge", "Old Bushong House", Tombstone Cemetery-- The Denton Stone, Grayholme, Huntington, Monterey and many others.

The book has 187 pages and is completely indexed.

A gift copy has been given to The Southwestern Virginia Genealogical Society by the author and is being placed in the Vinton Branch of the Roanoke County Public Library.

The price of the book is \$17.10, including postage and tax, and may be ordered from: Miss Helen R. Prillaman, P.O. Box 5431 or P.O. Box 5197, Roanoke, Va. 24012

THE PURVINE - WALKER FAMILY

The Purvine - Walker family is polling its members to determine whether or not to have a reunion this year. They had one last summer and 34 persons attended. 120 were invited. It was held near Salem, Oregon.

The Walker's are all descendents of Adam Walker and his wife Agnes Davis who lived in Wytheville and Wythe County in the late 1700's and the early 1800's before they went to Missouri and later to Oregon.

Contact: Lt. Col. Paul L Purvine Ret., 3411 W. Lawton St, Seattle, WA 98199

GUIDELINES FOR VIRGINIA APPALACHIAN NOTES

Material for publication:

1. Please type, if possible, on 8½x11" paper, single space, with minimum margins of 1" on all sides and headings patterned on those in this issue. PLEASE use a dark ribbon and CLEAN keys, mail in large manila envelope if ready to publish. If handwritten, please write plainly or print. If you feel you cannot type well, please type the material with double space. Please read the material over before sending it and check all dates.
2. Give source of material. Original documents - where found, type, number of page, etc. We cannot print material from printed source unless we have permission from the author.
3. Deadline for submitting material is the first of the month previous to the month of publication.
4. Material contributed will not be returned unless accompanied by a stamped self-addressed envelope.
5. We welcome all family histories (may have to be edited due to space) copies of court records, Bible records, etc. That little bit of information may be of help to someone. Of course, we cannot promise next issue publication.
6. On family histories, our policy is to print prior 1900 -- much as we would like to carry forward the modern day generations - it uses too much space.

NOTE: We cannot vouch for the accuracy of the material submitted to us or that the "translation" of the original document is true. If you have read such material, you can understand.

QUERIES:

1. Unless queries are to be used as fillers, submit one at a time. Since this is a quarterly, queries not used when originally submitted may become dated and of no value to the writer.
2. All material should be sent to Mrs. Minnie Hall, 2617 Lynhurst Ave. NW, Roanoke, Va. 24012.
3. Be sure your query makes sense. Don't abbreviate (we will) or over simplify. If longer than 50 words, we will edit.
4. Queries are free to members. To nonmembers the cost is 5¢ a word -- does not include your name and address. Limit of 50 words. We will try to get all queries in as space permits.
5. Please put queries on a separate sheet with your NAME and ADDRESS when enclosing with other material. Some queries have been lost along the way because of being included in the body of a letter. (NOTE: this applies to other requests as well.)

+++++=====+++++
REQUESTS FOR RESEARCH: Our research is made in our library. NO One should ask for material on John Henderson of Virginia -- we need dates, county (area) --give us something to go on. Remember early Virginia went to the Mississippi River - later included Kentucky, West Virginia, part of North Carolina, Tennessee, Maryland, and Pennsylvania (disputes over the boundaries). So when you say John Henderson was born in Virginia ----designate,-parents, children and who married who. Please remember that the research is done by volunteers and therefore is limited, it cannot be a comprehensive research. Also - please enclose a self addressed stamped envelope (SASE)
