MEETINGS

November 18, 1995, 1:30pm in the Roanoke Main City Library Brody Room,  
Judy Blackwell presents "Peculiarities and Simularities: Floyd, Giles,  
Pulaski and Montgomery Counties Research"

December 9, 1995, 1:30pm in the Roanoke City Library Brody Room "Let's  
Get Together" -- Gemeutlichkeit and refreshments!

January 20, 1996, 1:30pm in the Brody Room, Ora Belle McColman presents  
"Planning a Reunion"

February 17, 1996, 1:30pm - "Bring Your Problem", a discussion meeting  
with Carol Tuckwiller as moderator.

## PRESIDENT'S MESSAGE

October 14, 1995

Dear Fellow Members,

It seems this year has gone so fast. It will soon be 1996. The fall of the year is so beautiful but it is sad to know that the dead of winter will not be far behind.

I, and the other Board Members, want to apologize for the delay in getting the August VAN in the mail you to. Our printer had both technical and health problems, but we hope this is behind us and that your November issue will be arriving soon.

I hope that the summer months have been productive for you, that you have been able to make many trips to do your research and with the coming winter months you will be able to put it all together.

As I work in the court houses and the Library, I find more and more people are being "bitten by the bug" to find out more about their families and their heritage.

I wish it were possible for all of you to attend some of our great meeting programs. If you are in the area, or within commuting distance, please come to our meetings. Also, if you have something to share in the VAN, Babe Fowler, the editor, would like to hear from you.

Sincerely,

Ora Belle McColman  
President

THE VIRGINIA GENEALOGICAL SOCIETY SPRING MEETING  
APRIL 12 & 13, 1996

Mark these dates on your calender. The spring meeting will be held in Roanoke, Virginia, at the Marriott Hotel, Hershberger Rd. The agenda for the meeting will be announced in January, 1996. Address for the Virginia Genealogical Society is 5001 West Broad St #115, Richmond, Va 23230-3023.

=====

My name is Phyllis Cummings O'Connell. My parents are Mary Virginia Shuler of Grayson County Virginia, and Thad Shore Cummings of Yadkin County, NC. They were married 14 Sept 1940 in Grayson County, VA, and Thad was killed in an accident 9 July 1946. My mother, a career woman, never remarried and raised two daughters. She retired and resides with my sister in south Florida. Mary Shuler Cummings was the child of Carrie Hale born 28 Aug 1898 at Hulett, Wyoming; died on 28 Mar 1989 and husband Earl Levi Shuler born 9 Jun 1899 at Grayson County, VA, died 15 April 1981; both are interred at Comers Rock Cemetery, Grayson County, VA. They were married 18 June 1919 in Grayson County, VA. My Grandmother loved to sing, crochet, cook and quilt. Its to her I owe my love of genealogy . I treasure the antidotes, newspaper clippings and other memorabilia she recorded for me. Earl was a grandson of Abram Shuler whose ancestors immigrated from Germany via PA and NC. My maternal grandmother was the child of Alice Lindsey, born 20 Jun 1864, Wythe County, VA; died 25 May 1940 and husband Creed L. Hale, born 1 Nov 1860, Grayson County, VA; died 6 Mar 1950, Grayson County, VA. Both are interred at Comers Rock Cemetery, Grayson County, VA. They were married 23 Sept 1895, Crook County, Wyoming.

Alice was the oldest of ten children. She and Creed had an interesting and long love affair as related in a newspaper article published in the Idaho Monitor in 1895. It states they were married at the "Sundance Hotel parlor on Monday evening, Sept 23, 1895. This is the culmination of a love affair of long standing (she was 31 when she married Creed). The groom is one of the pioneer settlers of Crook County and owns a ranch near Hulett, Wyoming, on the Belle Fourche River (he raised and broke horses mostly for the U.S. Cavalry) and is the relative of J. D. Hale. The bride is a recent arrival from Virginia and is an accomplished young lady of high standing in society circles." Alice took the train from Rural Retreat to Hulett, WY, where Creed picked her up in his buggy and drove her to his homestead in the shadow of Devil's Tower. Alice did not like the cold and loneliness and was afraid of the Indians. So, back to Southwest Virginia they came and bought a farm in Comers Rock. Creed was the great-great-grandson of Lewis Hale a pioneer settler of Grayson County, VA.

My maternal great-grandmother Alice was the child of Melinda Jane Steffey, born 5 Jan 1843, at Wythe County, VA; died 24 Dec 1917 in Wythe County and her husband Calvin Stuart Lindsey, born 29 Jan 1840 in NC, died 2 Mar 1898 in Wythe County. They were married 11 Oct 1861 in Wythe County.

Melinda and Calvin raised eight children; she cared for two while he served in the Civil War. They were devout Lutherans. Calvin was a farmer and undertaker in Rural Retreat. Melinda died at age 74 of "heart disease." I treasure their family Bible and numerous photos of the Lindsey clan.

My maternal great-great grandmother Melinda was the child of Rebecca Cormany born Sept 1818 at Wythe County, VA, died 31 Jan 1890 in Wythe County and her husband David Steffey, born 27 Apr 1815 in Wythe County, VA and died 27 Oct 1855, Wythe County, They were married 20 Oct 1836 in Wythe County.

Rebecca was left a widow at age 37 with 7 children to raise. She never remarried and her death certificate lists her age as 72 years 8 months and the cause of death as paralysis. The Cormanys and Steffey's were members and elders of the first Lutheran Church in Wythe County established in 1782 conducting services in both German and English. Many of the Cormanys and Steffey's are buried in St. Paul Cemetery, Rural Retreat, VA. David Steffey was one of six children of Johannes Steffey and Rosina (Rosanna) Phillipi. Johannes served in the Revolutionary War and the War of 1812. Johannes (John) was the son of Johannes Ulrich Steffen and Anna Maria Schirmer. Ulrich was from Canton Bern, Switzerland and Anna Maria from Alsace, France. Ulrich was a "redemptioner" meaning someone paid his fare and bought his service for a specified period of time. The Moravian records show that when he united with the Quittopehille Moravian Church, now Lebanon County, PA, in 1745 he stated he was a tailor. His parents were Hans, a teacher, and Elsi (Graff) Steffen.

My maternal great-great-great Grandmother Rebecca was the child of Elizabeth Weaver born 2 Nov 1793 in Wythe County, died in 1846 in Wythe County and her husband Martin Cormany born 6 July 1794 in PA, died 15 Aug 1856 in Wythe County. They were married 29 July 1813 in Wythe County.

Martin Cormany was one of 14 children of Michael Cormany and Catherine Myers of Lebanon County, Pennsylvania, who settled near Rural Retreat sometime after June 1772. Michael is listed as a Revolutionary soldier from Pennsylvania. I believe Michael to be a son of "emigrant" Johannes (John) born about 1702 in vicinity of Landau/Neustadt, GE, "son-of-law" of Henrick Krause who came to Philadelphia in 1751. Tax records show Johannes in Lancaster County, PA in 1757, he died in 1778 in Lebanon, Lancaster County, PA, leaving his widow, Anna Maria. Martin Cormany (Kormany) served in the War of 1812 in the VA militia.

My maternal great-great-great-Grandmother Elizabeth was the child of Barbara Blessing (also spelled Plessey/Blessle) born 2 Jan 1762 in PA, died in Wythe County 8 Sept 1836 and her husband George Weaver (also spelled Weber) born 7 Feb 1792, PA, and died 6 Feb 1842 in Wythe County. George Weaver was a farmer and one of the first trustees of the Kimberling Church (Lutheran). The Weavers were early cabinet makers and are noted for many of the pie safes in the Black-Lick/Kimberling community. According to DAR records, George and Barbara were married in Shenandoah County, VA, 20 Dec 1782.

My maternal great-great-great-Grandmother Barbara was the child of Elizabeth Ritschart (Richard) born 24 Aug 1738 in the Canton of Bern, Switzerland. She died in Wythe county. Her husband was Jacob Blessing who died in 1790 in Shenandoah County, VA. Jacob is listed as a Revolutionary soldier from PA residing in Shenandoah County, VA, and a soldier in Dunmore's War in 1774.

My maternal ancestors reflect America's great "melting pot." They were adventurous, religious and patriotic. They accepted responsibility and adapted to change. I hope I can carry on their traditions and traits into the 21 st century.

## AT A MEETING

Of the young men of Fincastle, engaged in Merchantile employment, held on Tuesday the 17th inst.

Mr. DANIEL MEENAN in the Chair.

The following preamble and resolutions were proposed, and unanimously adopted ---

Whereas, the practice of selling Goods on the Sabbath, has become so familiar in Fincastle, that it attracts an assemblage of Negroes and 'low Whites' ---whose example is highly pernicious to public morals; and, whose actions are ostensibly subversive of the laws of the Land and the Municipal regulations of this place---a practice repugnant to every feeling of christianity and personal duty---detrimental to the publick---unprofitable to our employers --- and degrading to ourselves.

Resolved, That, from and after the 23rd day of July 1821, neither we, nor either of us, will sell or be accessory to the sale of Goods, Wares, or merchandise on the Sabbath day, unless in case of absolute necessity.

Resolved That, in order to frustrate false pretexts on this score, we will require of each and every applicant a testimonial of the fact from some citizen personally known to us as a man of probity and truth.

Resolved, That, we conceive it a duty, which we owe to our employers, to state, that our services have never been required by them, on the Sabbath day; but, that we have hitherto labored under the influence of a long established custom.

Resolved, That, for our mutual support in carrying the above resolutions into effect, we do thus publickly and solemnly plight to each other our words of Faith and Honor.

DANIEL MEENAN, C. M.; JOHN NAVIL, Jr.; WILLIAM KYLE; ALEXANDER CLIAGE  
WILLIAM SCOTT; DAVID S. CLIAGE; CHARLES ANDERSON; WILLIAM PORTER

ZIP CODE

It is important that all members send us their full zip code (nine numbers).  
I know it is a nuisance to remember all 9 numbers, but, if we don't have  
them, our postage will go up -- therefore our dues will go up and we don't  
want to do that. Please send the nine (9) number zip code for mailing.

=====

The Virginia State Library and Archives collect family Bible  
records. You may bring your original Bible to the Archives and  
they will make arrangements to copy the family information for  
the collection at no charge. If you are unable to visit the  
Archives, make good quality photocopies of the title page of the  
Bible showing the date of publication and any pages which record  
dates of birth, death, marriage or other important family  
information. Send the copies with information about the Virginia  
counties of residence of the families shown in the record to:  
Archives and Records Division, Virginia State Library and  
Archives, 11th Street at Capitol Square, Richmond, Virginia  
23219-3491.

Civil War letter contributed by Genevieve C. Starkey

Camp Near Russel Old  
Court House Virginia  
March the 7th 1862

Dear Father and Mother it is thuish the coind and tender  
Mercies of God that has gave me the oppertunity of riting you a  
few lines to let you know that I am in tolerble helth at this  
time whitch I thank God for and I hope when these few lines comes  
to hand they may fiend you enjoying good helth. Dear father and  
mother I hant any thing of interest to rite to you. I hav som  
nurse to rite and it is very bad I can tell you that I hav had  
the mumps I was a week with the mumps and then I took the Fever  
and was down with it a bout two week and as it is God's will I  
hav bin blest to get to camp a gain. I left the Hospittle the  
day before Licutenant Slusher Started home. I walked about 8 miles  
to get to camp and my back has bin very weak ever since but I  
trust to God that he will give me strength. So I can tell you that  
they is a heap of sickness hear and a heap of deaths one of  
Captin Turman's men died the night before last and Benjamin Keeth  
died last Night and was Barid to day. he had the Tipres fever and  
the Neumonie. they is a bout half of this Regiment that is sick.  
dear father and Mother I think that hard times is coming now and  
I think that peice will b. maid shortly. I hope that a great  
maney of our ridgement is in peace I hope that they hav maid  
piece with God and I hope that their soules is in rest where a  
great maney others is. Dear father and Mother I hope that if we  
never meat on earth that we may meat in heaven where parting is  
none no more. I trust that God will preserve me from all the  
sickness and gave me helth and strength so as I may be enabled to  
return home a gain. Dear father and Mother you don't know how  
much good it would do me if I could see the old worn out place a  
gain where I have bin raised and I trust in God that I can see it  
onst more. Dear father and Mother you don't know how much  
Pleasure my Bible and testament gaves me ? read them. I youst  
to hait to take holt of a book but now my Bible is sweet to me and  
it gave me the sweets of plesure. So I must com to a close hoping  
my hart to rest with yours and I hope that God will bless you all  
with helth and strength. So no more at presant onley your true  
and a bidble Son un till death. James W. Pratt To Father and  
Mother (A line here I could not decipher)  
Gave my Love to all my friends and Specielly Mr. Hatcher and tell  
him to rite to me and I will do the same  
So Fair well

James W. Pratt, a son of Jesse & Barbara (Simmons) Pratt, of Floyd , VA,  
was a Private, Co. D, 54th VA Infantry. He died 1 November 1863 in  
Lumpkin, Rome, GA hospital. Amount of money left was \$97.50.

## MARRIAGE CUSTOM

An early custom in old New England was if a woman was married for a second time, assuming she was a widow, she might be married in the nude! She would stand inside a closet with only her arm poking through, or standing behind a screen or wearing a sheet over her bare body.

This was her new husband's way of telling everyone that she came to him penniless, and that he would not assume any back debts of her previous marriage. These were called "Smock Weddings". Another custom was for the bride to cross a major road during late evening hours when it was totally dark, with future husbands and friends waiting on the other side. Here again, the bride would be naked so that witnesses could testify that she came to the new husband a poor widow. This gave them both legal relief to start anew. States of Kentucky and Tennessee bound it on the north and and Scott county and Wise on the east. The western part is mountainous and the land unimproved, but the eastern and portions are quite fertile and produce good and abundant crops corn, oats, rye and wheat and the grasses. Some tobacco of fine is also raised. The orchard and dairy yield handsome revenue. county is well watered by the headwaters of Powells river, which furnish a means for the transportation of grain and the forest product to market. The minerals found in this county are iron (red brown hematite), coal, barytes and salt. Coal oil is said to have recently been discovered. The timbers are white oak, much being natural growth, and every variety of wood to be found in any county in the State. Jonesville, the county seat, is a thriving village located about the middle of the county, and has a population of 300. The area of the county is 400 square miles, or 289,083 acres worth from \$1.00 to \$60.00 per acre.

Loudoun was formed in 1757 from Fairfax. It lies on the eastern slope of the Blue Ridge Mountains, which divide it from Clarke county, and Jefferson county, West Va. Its other border counties are Fauquier and Prince William on the south, and its mother county on the east. The Potomac river waters and skirts its entire northern border, and the Washington and Ohio railroad traverses its central portion from east to west, bringing it into easy communication with other sections and furnishing means of transportation for the very great quantity of grain and the large number of fine cattle raised in it. Loudoun real estate value is larger than any other county—aggregating about ten millions of dollars. The lands are immensely rich and productive. Loudoun takes first rank in the production of Indian corn, averaging one and a quarter million bushels annually. She also stands first in the butter made, wool clipped and number of milch cows, which exceeds 1000 of finest breeds. In the amount of wheat grown she is third, with half million bushels annually to her credit. In the number of horses and grass raised she is also third, and in the value of her orchard product fourth. Leesburg, the county seat, is a thriving town of 2,000 population, named after the Lee family, who were its earliest settlers. It is on the Washington and Ohio railroad, 38 miles from Alexandria and 41 miles from Washington City. The county has an area of 503 1/4 square miles, 347,715 acres, and the land has an average assessed value of about \$30 per acre.

**Courts.**

The CIRCUIT COURT of the 11th circuit meets at Leesburg on the 1st Monday in April, 3d Monday in October and the 3d Monday in January.

Judge, James Keith.

Clerk, E L Bennett.

SOME MONTGOMERY COUNTY DEATHS --AUBURN DISTRICT  
Ora Belle Mayberry McColman

My father, Elliott Mayberry, was the registrar in his district of Montgomery County for many years. He kept a list of deaths he reported, which was given to me by a granddaughter. They are:

	D.Date	Age
Rosa H. Lucas	4-29-1937	79 10-2

---

When statues of horseback riding heroes are constructed, the horse's position signifies how the hero died. A statue showing the horse with two hooves raised indicates the hero died in battle; one hoof raised, he died of battle wounds; and if all four hooves are on the ground, the hero died naturally. "The Bathroom Trivia Book", Red-Letter Press Inc, PO Box 393, Saddle River, NJ07458.

---

formed in 1805, and had to sustain more than a share of the vicissitudes of the last war between the United States and Great Britain, and was in 1812 actually overrun and taken possession of by the troops of the latter, but in the ensuing season was retaken by an army of the United States, under the command of General Harrison. Relieved from the calamities of war, and laid open to Atlantic commerce and emigration by the great western canal of New York, the advance of Michigan in population has been rapid, and is at present estimated at from 50 to 60,000 souls. This territory will probably be admitted into the Union as an independent State, in the course of the present or following year. The country to which the name of Michigan is usually confined, is a large peninsula, with its base resting upon the States of Ohio and Indiana, and bounded on the east and north-east by Lake Huron, for a distance of 250 miles, and having Lake Michigan for its western boundary, an extent of 260 miles. It is in length about 289, and in breadth at the widest part, 100 miles. Its area being 39,000 square miles, or 24,320,000 of acres. Politically speaking, however, Michigan embraces, besides the territory stated, that vast region situated between Lake Michigan and the Mississippi river, and Lake Superior and the State of Illinois, a territory 550 miles in extent from east to west, and upwards of 400 miles from north to south; this is officially designated, the territory annexed to Michigan, and it is also known as the North-west Territory. This region will probably soon be separated from Michigan proper, and organized as a distinct government under the title of the Ohio-consin or Huron territory. Michigan proper is generally a level country, having no mountains, and not many elevations that can properly be called hills. The centre of the peninsula is a table-land, elevated, however, but a few feet above the level of the lakes. Along the shore of Lake Huron there are in places high bluffs: along the east shore of Lake Michigan are immense hills of pure sand, of from 50 to several hundred feet in height, which have been blown up by the almost constant western winds sweeping over the lake and the sandy margin on its eastern side. The peninsula abounds in rivers: none of these have much extent of course, and but few of them are navigable to any considerable distance inland. Grand river is the largest: it empties into Lake Michigan: its whole course is about 150 miles, and it is navigable 50 miles from the lake to the rapids for sloops and steam-boats, and above that point there is sufficient depth of water for boats 50 miles farther. The St. Joseph's river is a considerable stream, and empties into Lake Michigan at the south-west angle of the territory. It is, like Grand river, navigable for large sloops to the rapids, and above them has a still further extent of boat navigation. It flows through a very fertile region, unfringed by prairies and high forests; the country on this river is not surpassed, in point of beauty and fertility, by any in the Union. Newburyport, Niles, South Bend, and Sartine or St. Joseph's, on this river, are recent settlements, and bid fair to become flourishing and prosperous towns. A steam-boat trades regularly between the mouth of this river and Chicago, on the opposite side of the lake. The other considerable streams which flow into Lake Michigan, are the Kalamazoo, Muskegon, Panton, water, Monistie, and Aux Beesies. Those which flow into Lake Erie, are the Maumee, Raisin, and Huron rivers. The Maumee is an important stream on account of the facilities which it, in connection with the Wabash, will afford for inland navigation, by means of an intervening canal. This

Continued from V 19 #3 p 113

river is navigable for steam-boats up to the rapids at Maumee and Perryburg in Ohio. The Clinton is the only considerable river which falls into Lake St. Clair. The Belle, and Black, or DuLude, fall into St. Clair river. The Saginaw, a considerable and important river, running northward, falls into Saginaw Bay, which is a part of Lake Huron. Many other, but smaller streams, fall into the same lake, such as the Thunder Bay, Sandy, Aux Caper, and Chippewa rivers.

The eastern parts of this territory, from various circumstances, became first settled. Within the few last years a great mass of emigrants have begun to spread themselves over this fine and fertile country. Sutherland, as it is, between the west, the south, and the east, with greater facilities for extensive inland water communication than any other country on the globe, with a fertile soil, of which millions of acres are fit for the plough, with a healthful climate, and with a concurrence of circumstances, inviting northern population, there can be no doubt that it will soon take its place as a State, and rival its western sister States. Wheat, Indian corn, oats, barley, buck-wheat, potatoes, turnips, peas, apples, pears, plums, cherries, and peaches are raised easily and in abundance. It is a country more favorable to cultivated grasses than the western country. In short, it is peculiarly fitted for northern farmers. No inland country, according to its size, population, and circumstances, has a greater trade. A number of steam-boats and lake vessels are constantly plying in this trade, which is with Mackinac, Detroit, Chicago, and Ohio.

The climate of this region, in consequence of its being level and peninsular, and surrounded on all sides but the south, with such immense bodies of water, is more temperate and mild than could be expected from its latitude. The southern parts have mild winters, and the spring opens nearly as in any part of the United States in the same latitude: the position of the northern parts must subject it to a Canadian temperature. The winter commences here early in November, and does not terminate until the end of March. At Detroit, in 1818, the mean heat of January was 24°, and in 1820, the mean heat of July was 69°, of December 27°. At Mackinac, one of the most northern settlements in the United States, the mean heat of October was 45°, of November 32°, and of December 21°.

## INDIANA.

In common with the extensive region on the waters of the Ohio and Mississippi, the territory now forming this State was visited at an early period by French traders and adventurers from Canada. About the year 1702, they established several small settlements at various places on the Wabash river; and among others at Vincennes, which, for a long period, was designated the Post, but subsequently received its present name after that of one of its commanders. The settlers were for near a century almost separated from the rest of mankind, and had, in many respects, assimilated themselves with the savages, with whom they had intermarried. During the war of the American revolution, Vincennes was reached and taken by a British force, and again reached and retaken by a small army, under the command of Colonel George Rogers Clarke; and the inhabitants manifested a disposition so favorable to republican principles, that at the close of the war the general government of the United States ceded to them a tract of land in the neighborhood of Vincennes. From that period until the peace established by the treaty of Greenville, the widely scattered population of this region suffered severely from the attacks of the savages. In the year 1811, in consequence of the murders and depredations committed by them, a military force, under the command of General Harrison, was sent against them, by whom they were defeated, and compelled to sue for peace. During the late war, the tide of emigration was almost completely arrested. Many of the settlements were broken up by the savages; but immediately on the termination of the contest, the tide set strongly again through Ohio to this State, and population poured in upon its woods and prairies. It has since been filled up with unexampled rapidity. Previous to the year 1800, Indiana was included in the territory north-west of the Ohio; after that period, Indiana, and the territory now forming the State of Illinois, continued to be united under the title of Indiana Territory, until 1809, when they were separated into distinct territorial governments. In December, 1815, the inhabitants amounting to sixty thousand, the Legislature petitioned Congress for admission into the Union, and the privilege of forming a State constitution. A bill for this purpose passed Congress in April, 1816; a convention of delegates met in conformity to it, by whom a State constitution was adopted, and Indiana became an independent State, and a member of the Union, in December following.

## INDIANA.

The State of Indiana is bounded on the north by Michigan and Lake Michigan; east by Ohio; south by the Ohio river, which separates it from Kentucky, and west by Illinois, from which it is separated in part by the Wabash river. The mean length is about 260, and mean breadth 140 miles; area, about 36,000 square miles, or 23,010,000 acres. The Ohio river flows along the southern extremity of this State for upwards of 250 miles, estimated by the course of the stream. The principal river, besides the Ohio, is the Wabash, with its numerous branches, of which the most important are the Salamonie and Mississinewa, both entering on its southern side in the upper part of its course; from the north it receives the Little, the Big, and Uppernece rivers, and from the west several considerable streams, having their course mostly in the adjoining State of Illinois; these are the Big and Little Vermillion, Eelharras, Bon Pas, and Little Wabash; and from the east the following are received, whose course is wholly within this State, viz. Sugar Creek, Knecroon Creek, and White and Patoka rivers. The White river is a valuable channel for trade, as it drains the central part of the State, and has several large confluent streams, of which its east and west forks are the principal. In the north-west part of the State are the Rankakee and Kickapoo, both head waters of the Illinois river; in the north and north-east are the rivers St. Joseph of Lake Michigan, and the St. Joseph of Maumee; the former falls into Lake Michigan, and the latter, uniting with the St. Mary's river at Fort Wayne, forms the Maumee, which flows in a north-easterly direction into Lake Erie. The streams in the southern part of the State, are the White Water, a tributary of the Miami river, and Laughey, Indian, and Anderson's creeks; also, Big and Little Blue rivers, and Great and Little Pigeon creeks, all of which flow into the Ohio river.

There are no mountains in Indiana; the country, however, is more hilly than the territory of Illinois, particularly towards Ohio river. A range of hills, called the Knobs, extends from the falls of the Ohio to the Wabash, in a south-west direction, which in many places produces a broken and uneven surface. North of these hills lie the Flat Woods, 70 miles wide, bordering on all the principal streams, except the Ohio, there are strips of bottom and prairie land; both together, from three to six miles in width. Between the Wabash and Lake Michigan, the country is mostly champaign, abounding alternately with wood-lots, prairies, lakes, and swamps.

A range of hills runs parallel with the Ohio, from the mouth of the Great Miami to Blue River, alternately approaching to within a few rods, and receding to the distance of two miles. Immediately below Blue River, the hills disappear, and there is presented to view an immense tract of level land, covered with a heavy growth of timber.

There are two kinds of prairies, the river and the upland prairies; the former are bottoms destitute of timber, and are said to exhibit vestiges of former cultivation; the latter are from 30 to 100 feet more elevated, and are far more numerous and extensive. Some of them are not larger than a common field, while others extend farther than the eye can reach. They are usually bounded by heavily timbered forests, and not unfrequently adorned with copes of small trees. In spring and summer, they are covered with a luxuriant growth of grass and fragrant flowers, from six to eight feet high. The soil of these plains is often as deep and fertile as the best bottoms. The prairies bordering on the Wabash are particularly rich.

Wells have been dug in them, where the vegetable soil was 22 feet deep, under which was a stratum of fine white sand. The ordinary depth is from two to five feet.

The principal productions of this State are wheat, Indian corn, rye, oats, barley, buckwheat, potatoes, pulse, beef, pork, butter, whiskey, and peach-brandy.

Not far from Big Blue River there is a large cave, the entrance of which is on the side of a hill, that is about 400 feet high. Here are found great quantities of sulphate of magnesia, or Epsom salt, and of nitre, &c.

The climate is generally healthful and pleasant, resembling that of Ohio. The Wabash is frozen over in the winter, so that it may be safely crossed on the ice.

#### POPULATION AT DIFFERENT PERIODS.

	INCREASE.	SLAVES.
In 1800, . . . . .	5,641	133
1810, . . . . .	21,520	From 1800 to 1810, . . . . .
1820, . . . . .	147,178	18,879
1830, . . . . .	341,582	237
		1810 to 1820, . . . . .
		122,658
		190
		1820 to 1830, . . . . .
		194,404
		0

Of the above population of 1830, there were, white Males, 170,513; Females, 161,507; deaf and dumb, 104; blind, 72; alien, 280; total white, 339,020. Free colored Males, 1,792; Females, 1,750; total, 3,542.

The following new Counties have been laid off since 1830:—Grant, Huntington, La Grange, La Porte, Miami, and Wabash.

#### INTERNAL IMPROVEMENTS.

##### CANAL.

*Wabash and Erie Canal.* By the Legislature of 1832, an act was passed supplemental to an act providing means for the construction of this canal. By this act, steps were taken to realize and render available the donation of lands, granted for this purpose, by the United States. Commissioners were appointed to borrow money on the credit of the State for the prosecution of the work, and a train of measures arranged tending to a speedy completion of a union between the waters of Lake Erie and Indiana.

##### RAIL-ROADS.

Eight joint-stock companies were incorporated by the same Legislature for constructing rail-roads from Ohio river to Indianapolis, the seat of government, and to different places on the river Wabash. Capital stock of all the companies, \$4,000,000.

An act was passed in January, 1832, to ratify and confirm an act of the Legislature of Kentucky, incorporating a company to build a bridge across the Ohio river, near the falls at Louisville. Capital, \$500,000, divided into shares of \$50 each. The privilege of subscribing one-fifth of this amount each, is reserved for a certain time to the States of Kentucky and Indiana, and the city of Louisville. Strict provisions are made for the security of the navigation of the Ohio, by boats and vessels of every description.

## ILLINOIS.

The name which now belongs exclusively to this State, was, during a great part of the last century, bestowed upon all that vast tract of country which lies north and west of the Ohio, and was derived from the river Illinois, which, in the language of the Indians, by whom its banks were inhabited, signifies *the river of men*. The first settlements within the present limits of Illinois, were, like those of Indiana, made by the French, and were the consequence of the adventurous enterprise of M. De La Salle, in search of the Mississippi. This traveller set out from Canada, in the year 1670, in company with Father Hennepin and a few followers, and passing up the lakes to the head of Lake Michigan, descended the Illinois river. After remaining some time, he returned to Canada; from whence he set out with a number of volunteers in 1673, for Illinois, and shortly afterwards founded the settlements of Kaskaskia and Cahokia. Here La Salle left his colony, and descended the Mississippi to its mouth. At the commencement of the eighteenth century, the settlements in Illinois are represented to have been in a flourishing situation. The descriptions given by French writers of the country at this time, were of the most captivating kind; its beautiful scenery, fertile prairies, and supposed mineral wealth, were painted in glowing colors, and a new paradise seemed to open to Frenchmen on the banks of the Illinois. The settlements here, like those of Indiana, however, soon degenerated, and by degrees assimilated their manners to those of the Indians, among whom they resided. Of these savages the number and varieties at the epoch of the first settlement, and since, are not well ascertained; in 1780, there were, according to Hutchins, twelve tribes inhabiting different parts of this State, the aggregate number of whose warriors amounted to near 6000 men. At the close of the revolutionary war, and by the treaty of 1783, the country was claimed under the charter of Virginia, and held by that State until ceded to the United States in 1797. It was then made a part of the territory north-west of the Ohio river; in 1800, when the present State of Ohio was, with Michigan, formed into a separate territory, Illinois and Indiana remained united, and continued one territory under the name of the latter, until 1809, when they were separated into two, and a distinct territorial government was established for the district now forming the State of Illinois. Indiana lying eastward and in the direction of the stream of emigration, preceded Illinois as a State.

The State of Illinois is bounded north by the territory attached to Michigan; east by Michigan and the States of Indiana and Kentucky; south by Kentucky and Missouri; and west by the State and territory of Missouri. Its medium length is about 350 miles, and medium breadth 170; the area being about 59,500 square miles, or 39,000,000 acres.

The Mississippi, Ohio, and Wabash, form about two-thirds of the whole boundary of this State. The other most considerable rivers are the Illinois, Kaskaskia, Muddy, Saline, Little Wabash, Mackinaw, Crow Meadow,

The peninsula between the Mississippi and Illinois rivers, has been surveyed for military bounty lands. Congress appropriated for this object 3,500,000 acres; and the surface actually surveyed amounts to an area about equal to 240 townships, each 6 miles square; equal to 8,640 square miles, or 5,530,000 acres, nearly. It was necessary that the number surveyed should exceed the number appropriated, as the act of Congress provides that the several portions granted shall be fit for cultivation. These lands are described as being very good.

The southern and middle parts of the State are for the most part level. The north-western section is hilly, broken country, though there are no high mountains. The climate resembles that of Indiana and Ohio. The low and wet lands in the southern part are unhealthy.

The soil has been divided into six distinct kinds. 1. Bottom land, bearing a heavy growth of honey-locust, pecan, black-walnut, beech, sugar-maple, buckeye, pawpaw, grape-vines, &c. This land is of the first quality, and is found in greater or less quantities on all the considerable rivers. It is of inexhaustible fertility, and is annually cultivated without manure. 2. Newly formed land, found at the mouths and confluences of rivers. It produces sycamore, cotton-wood, water-maple, water-ash, elm, willow, oak, &c. There are many thousand acres of this land at the mouth of the Wabash, and at the confluence of the Ohio with the Mississippi. It is annually inundated, and is unhealthy. 3. Dry prairies, approaching the rivers and bordering on the bottom land, from 30 to 100 feet higher, and from 1 to 10 miles wide. These prairies are destitute of trees, except where they are intersected by streams of water and occasional tracts of woodland. It has been estimated that as much as two-thirds of the whole State consists of open prairie. The dry prairie has a black rich soil, well adapted to purposes of agriculture, and is covered with rank grass. 4. Wet prairie, found remote from streams, or at their sources. This is generally cold and unproductive, abounding with swamps and ponds, covered with tall coarse grass. 5. Land covered with timber, moderately hilly, well watered, and of a rich soil. 6. Hills, of a sterile soil and destitute of timber, or covered with stunted oaks and pines.

The prevailing forest tree in Illinois is oak, of which as many as 13 or 14 different species have been enumerated. Honey-locust, black-walnut, mulberry, plum, sugar-maple, black-locust, elm, bass-wood, beech, buckeye, blackberry, coffee-nut, sycamore, spice-wood, sassafras, black and white haws, crab-apple, wild-cherry, cucumber, and pawpaw, are found in their congenial soils throughout the State. White pine is found on the head branches of the Illinois.

Copper and lead are found in several parts of the State. Coal has been discovered in several places, on the Big Muddy, in great quantities near Brownsville, on the Kaskaskia, near the town of that name, near the town of Edwardsville on the Illinois, 50 miles above the Illinois Lake, and in other places. Salt water is found in several places, sufficient to furnish immense quantities of salt. The famous salt-works belonging to the United States are in the vicinity of Shawneetown. Iron-ore has also been discovered.

Sulphur springs, chalybeate springs, and very strong impregnating

of pure sulphurite of magnesia or Epsom salts, abound in different parts.

In the southern part of the State a number of sections of land have been reserved from sale on account of the silver ore which they are supposed to contain.

The lead-mines in the vicinity of Galena, are very extensive and valuable. The mineral has been found in every portion of a tract of more than 50 miles in extent in every direction, and is supposed to occupy a territory of more than twice that extent. The ore lies in beds, or horizontal strata, varying in thickness from one inch to several feet. It yields 75 per cent. of pure lead.

The staple productions of Illinois are Indian corn, wheat, potatoes, beef, pork, horses, tobacco, and lard. The castor bean is raised, and oil is manufactured from it, but not in large quantities. Good cotton is produced for home consumption, and is manufactured extensively in the families of farmers, into coarse fabrics, for domestic uses. Hemp, flax, and silk-worms succeed well. Apples, peaches, pears, plums, cherries, grapes, gooseberries, and currants, arrive at great perfection.

## POPULATION AT DIFFERENT PERIODS.

	INCREASE.	PLAYERS.
In 1810, . . . . .	12,282	
1820, . . . . .	55,211	From 1810 to 1820, . . . . .
1830, . . . . .	157,575	1820 to 1830, . . . . .

Of the above population of 1830, there were, white Males, 92,392; white Females, 79,074; deaf and dumb, 64; blind, 26; aliens, 447; total whites, 153,120. Free colored Males, 172; Females, 124; total, 1,633. Slaves—Males, 361; Females, 385; total, 746. Colored, 2,399. Whole population, 157,575.

The following new counties have been made since 1830:—Coles, Cook, Effingham, Jasper, La Salle, McLean, and Rock Island.

## INTERNAL IMPROVEMENTS.

The Illinois and Michigan Rail-road is intended to commence at Chicago, on Lake Michigan, and continue in a south-westerly direction 113 miles to the summit-level: in this distance the ascent is only 25 feet. After passing the summit-level it is to cross and continue along the river Des Plaines to the foot of the Illinois rapids, the distance of 85 miles, with a descent of exactly two feet a mile: thus giving, in a distance of 86½ miles, only 103 feet of rise and fall. From the termination of this rail-road, the Illinois river is navigable about 250 miles to the Mississippi.

A canal has been for some time past projected, to traverse the same route as that described above for the rail-road. The route has been surveyed, and about 480,000 acres of land granted by the general government to the State for carrying it on. Much greater difficulties than were at first anticipated, have been ascertained to exist in the nature of the ground, from Chicago to the Des Plaines river, a distance of 20 miles, there being a substratum of solid limestone a few feet below the surface. This circumstance will probably render the rail-road the more eligible improvement; the completion of either or both of them, will make Chicago a place of consequence, and will open up admirable facilities for the transportation of merchandise from the eastern to the Mississippi region of the Union.

## MISSOURI.

Two French, to whom the discovery of the Mississippi is owing, were the first adventurers into the territory within the limits of the State of Missouri. Many years, however, elapsed after the discovery, and the colony near the mouth of the Mississippi had risen into considerable importance, before any attempt was made to form a settlement so high up the river as its junction with the Missouri. The first settlers generally planted themselves on the eastern side of the Mississippi. Previous to the treaty of peace of 1763, by which Canada was ceded to Great Britain, few grants of land had been made on the western bank, and these were mostly for the purpose of mining. The first permanent settlements in the State of Missouri appear to have been made at St. Genevieve and New Bourbon, which were founded soon after the peace of 1763. In the succeeding year, St. Louis, the principal town in the State, was commenced. It was founded by a company of traders, associated under the name of Pierre, Laclede, Maran, & Co., who rightly conceived it to be a spot where the trade of the Missouri, the Mississippi, and the other great rivers of that region, was likely to centre. In 1789, St. Charles, on the Missouri, was established; and in 1787, New Madrid, on the Mississippi, which had been previously a settlement of hunters and traders, was laid out in the form of a regular built town, under the direction of Gen. Morgan, of New Jersey. The settlements and towns remained feeble and scattered until after the cession of Louisiana to the United States. In 1804, Louisiana was divided, and the territory of Missouri created. Emigration, though not very rapid, carried the population in 1819 to the constitutional amount to entitle the people to a State government. Application was accordingly made to Congress, at the session of 1819-20, and after a stormy and protracted debate, turning principally on the admission or rejection of slavery, permission was given to the people of Missouri to form a constitution, admitting slavery under certain restrictions. Complying with the conditions, a constitution was formed, and on the 10th of August, 1821, Missouri became one of the United States.

This State is bounded north and west by the Missouri Territory; east by the Mississippi river, which separates it from Illinois, Kentucky, and Tennessee; and south by Arkansas' Territory. Its length is about 280 miles, and medium breadth 220; the area being 61,600 square miles, or 39,424,000 acres.

The Mississippi river runs 550 miles along the eastern border of the State, whilst the Missouri flows 384 miles through it, and enters the Mississippi. The western line of this State is the meridian which passes through the point of junction of the Kansas and the Missouri rivers.

Besides the great rivers Mississippi and Missouri, this State is watered by various others of considerable magnitude. The largest are the Osage, Grand, Salt, Chariton, Clinton, Ginsonville, Merriam, Big Black, and St. Francis. The Osage is a large river, unavigable for boats 660 miles. *Steam-boat navigation from St. Louis.*—St. Louis is 1,200 miles, by the course of the river, above New Orleans, and is next to that city, the largest and most commercial town on the Mississippi. In the summer of 1831, there were six steam-boats regularly employed between St. Louis and New Orleans. A trip from one place to the other and back again usually occupied 24 days; the shortest time in which one was ever made, 19 days. The usual fare for cabin passengers descending, \$20; ascending, \$25; for deck passengers, \$5 either way. Freight per 100 lbs. descending, 37½ cents; ascending, 62½ cents.

From St. Louis to Louisville, 320 miles: 10 boats are regularly employed: usual time of a trip, 10 or 11 days; the passage one way usually being somewhat more than three days; fare of cabin passengers about \$15, either way; deck passengers, \$4; freight about 25 cents per 100 lbs. Boats are regularly employed: time occupied by a trip, about 10 days: fare for passengers ascending, \$12; descending, \$9. The route of some of the boats is occasionally extended to Cincinnati, 130 miles above Louisville.

From St. Louis to Fever River, about 480 miles: several steam-boats are regularly employed: time occupied by a trip, about 10 days: fare for passengers ascending, \$12; descending, \$9. The route of some of the boats is occasionally extended to St. Peter's River, 400 miles further up. In 1831, two boats were employed in running from St. Louis up the Missouri to Franklin, 200 miles, and to Fort Leavenworth, 200 miles further: freight to Franklin 75 cents per 100 lbs., and to Fort Leavenworth from \$1.25 to \$1.50; from Franklin down, 25 cents per 100 lbs.

From St. Louis to Peckin, on Illinois river, 180 miles: several boats are regularly employed. Steam-boats, also, come occasionally to St. Louis from Pittsburg and other places.

A great proportion of the land in this State is of the richest kind, producing corn, wheat, rye, oats, flax, hemp, and tobacco, in great abundance. The lands bordering on the Missouri, are exceedingly rich. They consist of a stratum of black alluvial soil, of unknown depth. As you recede from the banks of the rivers, the land rises, passing sometimes gradually, and sometimes abruptly, into elevated lawns, shaly ridges, and rocky cliffs. A portion of the State is, therefore, unfit for cultivation: but this part of it, however, is rich in mineral treasures. The land is either very fertile or very poor; it is either bottom land or cliff, either prairie or barren; there is very little of an intermediate quality. The climate is remarkably serene and temperate, and very favorable to health.

The most remarkable feature in Missouri is its lead-mines, which are estimated to cover an area of about 3,000 square miles. The centre of the lead-mine district is about 70 miles south-west from St. Louis, and the principal diggings are included in an extent of 30 miles in one direction by 15 in another. The lead-ore is found in detached masses, and not in veins. The business of mining is, consequently, very uncertain. The ore is of that species called galena, and yields from 75 to 80 per cent. About 3,000,000 pounds of lead are annually made, giving employment to about 1,200 hands. In this region, are likewise found copper, zinc, manganese, antimony, iron, calamine, cobalt, &c. These lead-mines were wrought by the French, 100 years ago.

## MISSOURI TERRITORY.

This vast extent of country, lying between the State of Missouri, Arkansas Territory, and the Mississippi river on the east, and the Rocky Mountains on the west, comprises the greater part of the western slope of the Mississippi valley, and is almost wholly uninhabited, except by Indians. It is part of the Louisiana purchase, and has been explored by Lewis and Clark, by Pike, and the gentlemen of Long's expedition. The number of Indians in this territory, is estimated at from 120,000 to 140,000. The Sioux, or Dacotahs, Pawnees, and Osages, are the most numerous and powerful.

The surface and soil of this great territory are different from any other of the same dimensions on the globe. The lower courses of the rivers that enter the Mississippi from this region, are wooded. In proportion as we ascend towards the mountains, the wood becomes more scarce, and the upper tributaries of those streams run through open prairies. There is also a fertile belt along the banks of all these streams, but in proportion as we diverge from them, the land becomes more sterile and parched. We sometimes travel whole days, without seeing water. A large portion of this country may be likened to the Great Sahara, or African desert. There is, however, in the most sterile parts, a thin sward of grass and herbage.—Countless droves of buffaloes, elk, and deer, range upon these vast prairies.

## MISSOURI TERRITORY.

They will probably, at some future period of our national existence, be replaced by herds of domestic cattle, and flocks of sheep, followed by moving bands of shepherds. To the west of these plains, the Rocky Mountains rise up in an abrupt manner, presenting a steep front, with numerous frowning, rocky precipices, and having many summits, covered with perpetual snow. Their black, precipitous, and desolate appearance, has probably obtained for them the name of the Rocky Mountains. They separate the waters of the great tributaries of the Mississippi from those that fall into the Columbian, Colorado, and other waters of the Pacific. In many places, the waters that run into the tributaries of the Mississippi, rise near those that fall into the Pacific. Thus has Nature kindly provided points of easy transit from the eastern to the western side of these frowning and apparently impassable barriers. It is asserted, by persons engaged in the fur trade, that following up the valleys of the sources of the Platte river to the opposite valleys of the waters that flow into the Pacific, a good road was found, and easily passable by loaded wagons.

The great river of this territory is the Missouri, which, with its tributaries, drain three-fourths of it; the principal of which are, the Yellow-Stone, or Roche Jaune, Little Missouri, Running Water, Platte, and Konzas, with their numerous branches, which enter on its south and west sides, and the Marais, Milk, Jacque, and Sioux, which run in on the opposite side. Red River, of Lake Winnepack, flows for some distance through the north-eastern part of this region: its principal branch is the Assiniboin, one of whose tributaries rises within a mile of the north bank of the Missouri. Red River is a broad, deep, and interesting stream, abounding with fish, and the country along its banks with elk and buffaloes. It is on the banks of this remote river, that Pembina, Lord Selkirk's interesting settlement, is located, just within the northern boundary of the United States. The Arkansas river forms, for a considerable part of its upper course, a portion of the national boundary. The head waters of this stream were first explored by Pike, and afterwards more thoroughly by Long. It runs through a country where the traveller can often see nothing but a grassy plain, boundless to the vision. The Semecone, or Negrecka, Grand, Saline, and the Canadian river, which enters on its south side, near 600 miles from the Mississippi, are the most important of its branches.

The most considerable streams which enter the Mississippi, in this territory, are the St. Peter's, Lower Iowa, and the river Des Moines. The St. Peter's enters the Mississippi about 10 miles below the falls of St. Anthony, by a mouth 150 yards wide, and a depth of 15 feet water. Fort Snelling, a military garrison belonging to the United States, stands on the south bank of the Mississippi, at the junction of the two rivers. It is the most remote post in this section of the Union. The other military posts of the United States are Cantonment Leavenworth, on the Missouri river, a short distance above the Little Platte, and beyond the western limits of the State of Missouri. Cantonment or Fort Gibson, is situated on Grand River, two miles above its junction with the Arkansas. This is the most remote point of steam-boat navigation on the Arkansas river, it being 640 miles from the Mississippi by the meanders of the river. Fort Towson is on the Kioweeche, a branch of the Red River, just above its junction with that stream, and a few miles beyond the western boundary of Arkansas territory. These posts are all garrisoned by United States' troops, and are intended to check

and keep in awe the Indian tribes in their vicinity. On our General Map of the United States will be found Fort Callahan, at the Council Bluffs, on the Missouri river, a short distance above the Platte river. This was a military station of the United States, but has been for some time abandoned. Fort Mandan, on the north bank of the Missouri, not far below the Little Missouri, was the wintering place of Lewis and Clark, in 1804-5, on their journey to the Pacific Ocean. This is still refined, though improperly, on maps.

### OREGON TERRITORY.

To this region the United States have acquired a title by the Louisiana treaty, by the discovery of the principal river, and by interior exploration. It is, however, contested by Great Britain, who claims, not that the title is in her, but that the region is unappropriated, and open to the first comer. By a convention concluded in 1828, to last twelve years, it was agreed between the United States and Great Britain that neither government should take possession of it, or occupy it, to the exclusion of the other, during the period of the convention, which either party might renounce upon giving twelve months' notice.

This territory has been so named in the congressional discussions that have taken place in reference to the country. It was first discovered by the Spaniards, who, however, did not penetrate into the interior. In 1791 Captain Gray, of the ship Columbia, of Boston, entered the great river of this region, and from him it received the name of his ship. The celebrated navigator, Capt. Vancouver, was then at Nootka Sound, and the discovery was very frankly and fortunately communicated to him, who sent one of his principal officers to examine the channel, and in his narrative admits the fact; thus placing the right of prior discovery in the United States, beyond dispute, on British evidence. In 1805, Lewis and Clark were sent out by the United States' Government, for the express purpose of exploring this country: they navigated the Missouri to its source, and crossing the Rocky Mountains, descended the Columbia river to the Pacific Ocean, and spent the winter on its shores; they returned by the same river to the mountains, and most of the exact information that we have of the country is from them. The question of settling this territory permanently, has been more than once debated in Congress: were such settlement authorized, and rendered secure by the requisite military establishments, there can be no doubt that it would receive large accessions of settlers. Some attempts have been made by individuals to induce the United States' Government to take possession formally of the territory; and in 1810, a private expedition, at the expense and under the direction of John Jacob Astor, Esq., of New York, actually formed an establishment, and named the principal deposit Astoria. This colony of 120 men, went out well provided for trade and agriculture. Two years after the first settlement of Astoria, they had established themselves at five other places; these posts, however, have not been sustained: some have been abandoned, and others have passed into the possession of the British Hudson's Bay Company, which has trading establishments, extending through various parts of this region, from the mountains to the Pacific. The boundary of this great region on the north

is the parallel of  $51^{\circ} 40'$ , north latitude, which forms a provisional boundary line between this territory and the Russian American possessions; on the south the parallel of  $42^{\circ}$  north latitude separates it from the Republic of Mexico; on the east is the territory of Missouri; and on the west the Pacific Ocean. The surface of the country, so far as it is known, is broken and mountainous; it is traversed on its eastern boundary by the vast ridges of the Rocky Mountains, many of the elevated peaks of which rise above the limits of perpetual congelation. Westward of the mounting the country descends by regular slopes, in form of immense terraces or descent, from 120 to 160 miles from the Pacific, and nearly parallel with the coast, to a range of mountains extend, which have as yet received no general designation; the highest peaks have been named Mount Jefferson, Mount Hood, Mount St. Helen's, Mount Rainier, &c. The only rivers explored in this territory are the Columbia or Oregon, and its branches. This noble stream has its head waters near those of the Missouri, and collects its tribute for a wide extent along the western dividing ridges of the Rocky Mountains; its principal tributaries are Lewis', Clark's or Flat Head, McGillivray's, Okanagan, and the Malimounah rivers. The Columbia and its branches abound in the finest salmon, which seem to constitute the chief article of food of the natives west of the Rocky Mountains. Seals and other aquatic animals are taken in great numbers, and the skins shipped to China, which constitutes one of the chief articles of trade from this part of the world. The country bordering on the Columbia and its branches, is represented as having a good soil, and is covered with heavy timber, consisting chiefly of various species of fir; many of the trees being of enormous height. The other rivers of any note are the Caledonia and Frazer's or Incouche-Teeser, (and its principal tributary Thompson's river); these flow into the Gulf of Georgia. On the head waters of the two last mentioned streams, the Hudson's Bay Company has some trading houses or forts. There are several lakes in this region: the largest are Flat Bow, the Upper and Lower Lakes of the Columbia, Caledonia Lake, from which flows a considerable branch of the Columbia. On the coast of this territory are the counties, denominated by British navigators, New Georgia, and New Hanover; and immediately north of the northern head waters of the Columbia, and west of the Rocky Mountains, is New Caledonia. Of these remote countries but little is known with certainty. There are numerous tribes of Indians west of the Rocky Mountains, the whole numbers of which, within this territory, are estimated at 110,000. Some of these are singularly designated, as Flat Heads, Flat Bows, Pointed Noses, Pierced Noses, &c. The Shoshone or Snake Indians, are the most powerful, and are supposed to amount to about 15,000. The representation of this region on our general map of the United States, is probably more complete, for its scale, than any other extant: in addition to what is found in the latest maps, many items of information, derived from the late work entitled Ross Cox's Adventures on

\* By an inadvertence in the engraving of our general Map of the United States, the northern boundary line of this territory has been carried along the parallel of  $50^{\circ}$  north latitude, instead of  $51^{\circ} 40'$ . Those who may consult this part of the map will please consider this. The  $10^{\circ}$ -d. latitude will be a belt of about 46 English miles, which should be added on each side of the engraved line.

the Columbia River, have been introduced into it. The climate on the coast of the Pacific is believed to be milder than on the same parallels of latitude on the Atlantic. When Lewis and Clark left this country in March, the prairies were in blossom, and the forwardness of the season seems to have corresponded with that of North Carolina, at the same period. The winters are rainy, and among the mountains the cold is very severe.

## OUICONSIN TERRITORY.

(Pronounced *Wiscon'sin*.)

This vast region has hitherto been politically connected with Michigan; but as that territory has as distinct geographical limits as any State in the Union, and this region is only connected with it by circumstances of a temporary nature, which no doubt will in a short period cease to exist, it is evident that this section of the United States ought to be viewed, geographically at least, as a territory by itself. It is in length, from east to west, about 350 miles, and 400 in breadth, from north to south; the area is about 100,000 square miles. It is bounded on the north by Lake Superior and the British Possessions; south by the State of Illinois; east by Lake Michigan, and west by the Mississippi river, and by a line drawn from its source to the northern boundary of the United States, which separates it from Missouri territory. The principal rivers, besides the Mississippi, are the Ongon, Chippeway, St. Croix, and Rinn River, all of which flow into the Mississippi. The streams which run into Lake Superior are numerous, but brief in their length, of course; the most considerable of them are the St. Louis, Montreal, Otonagon, and Huron. The Menomonic, Wolf, and Fox rivers flow into Green Bay. The largest tributary of the Mississippi, in this territory, is the Ouiconsin, which rises in the northern interior of the country, and has a course of between 3 and 400 miles, with a shallow and rapid current: it is, however, generally boatable in good stages of the water, and is 800 yards wide at its mouth. There is a portage of 1½ miles between this and Fox river: it is over a flat prairie, so little elevated above the water level of the contiguous rivers, that small craft are navigated, in seasons of high water, from one stream to the other. The Chippeway is a considerable branch of the Mississippi, and enters just below Lake Pepin: it is half a mile wide at its mouth, and is navigable for boats upwards of 100 miles. It communicates by a short portage with Lake Superior, by the Montreal river. A canal of six miles, over a perfectly level plain, would connect this stream with the preceding, and furnish a continuous navigation from Buffalo to the Mississippi river. On the banks of the Menomonic, a tributary of the Chippeway river, the settlements of Bloomingport and Fairport have been formed under the auspices of, and on a tract of country belonging to, the Mississippi Land Company of New York;<sup>a</sup> the same that has been

<sup>a</sup> This tract is represented on the Map. It is situated between 46° 26' and 46° north lat. and 13° and 16° west from Washington. It is principally in Chequamegon county, in Outagamie, or the territory numbered in Michigan. It is now owned and claimed by an association of gentlemen residing principally in the State of New York, under the title of the Mississippi Land Company of New York. They claim it as remises of the heirs of the late Captain Jonathan Carver, and their title was recognized by the chancery of the State of New York in 1821, and again formally recognized and confirmed in 1827, by the chancery of Wm. P. Van Ness, Esq., Judge of the District Court of the United States for the Southern Dis-

hitherto known as Carver's Tract. The soil, in the vicinity of the settle-  
ment, is of good quality, partaking of woodland and prairie in convenient  
proportions; and the river is航able in all seasons, except when closed by  
ice, affording a constant communication with the Mississippi. Green Bay  
settlement is situated at the outlet of Fox river, and is prosperous and  
thriving.

Prairie du Chien is a considerable village; it is a place of importance as  
an outlet from the Upper Mississippi to its lower waters. It is situated near  
a beautiful prairie, and at certain seasons of the year it is populous, bustling,  
and busy. Curious modes of justice, and of dispatching business, have  
been adopted here by prescription. Frequent voyages are made from St.  
Louis to this place in steam and keel-boats. This is a fine region for hunt-  
ers: in the upper part of the country, buffaloes, elk, bears, and deer are  
numerous, and beavers, otters, and muskrats are taken for their furs; the  
trappers and Indians roam over immense prairies in pursuit of their objects.  
In some parts of it, the soil is fertile; white and yellow pine, and white  
birch, are common among the forest-trees. All the water-courses, ponds, and  
marshes are covered with wild rice, which constitutes a considerable part  
of the food of the inhabitants. This is a country abounding in minerals:  
in it lead is found in great abundance, and also copper and iron. The land  
region is in the southern part of the territory; it extends from the Ouiscon-  
sin to Rock river, and is probably 200 miles in length, by 100 in breadth.  
The ore is supposed to be inexhaustible, and very rich, yielding from 60 to  
85 per cent. The southern parts of this extensive region, possess a cli-  
mate comparatively mild, and not much unlike that of the northern parts  
of Missouri. At the Falls of St. Anthony, the summers are temperate, and  
the winters frequently very cold. The whole population is at present esti-  
mated at from 20,000 to 25,000.

The Mississippi river was ascended above the Falls of St. Anthony, as  
early as 1680, by Father Hennepin, who remained some time in the coun-  
try, and endeavored to convert the savages to Christianity. This territory  
was also subsequently visited by La Motte, who traversed it to some ex-  
tent; the geographical descriptions of both are, however, difficult to be recog-  
nized at this time. Between the years 1766 and 1768, Capt. Jonathan Carver,  
an officer in the Massachusetts provincial line, who had served with reputa-  
tion under General Wolfe, in the conquest of Canada, visited and explored  
a considerable portion of this region. He remained some time among the  
natives, and succeeded in an eminent degree in gaining their confidence and  
friendship. He afterwards visited England, for the purpose of publishing  
an account of his travels, and obtaining remuneration from the British  
Government for his services in the prosecution of what was certainly an  
object of great national advantage, the country he had explored being, at  
that period almost entirely unknown in England. He was, however, treated

of New York. The debt, or gift from the Indians to Captain Carver, was stated on the  
first of May, 1767, and is stated to have been granted for services rendered in the Indian  
tributary during Carver's visit among them; and copies of it will be found in the second edition of Car-  
ver's Travels, published in London in 1781, and in the archives of Congress, and of the War  
Department of the United States. "The tract contains between eight and nine millions of  
acres of land, and is described as beginning at the Falls of St. Anthony, on the east bank of  
the Mississippi river, running south east as far as the south end of Lake Pepin, where the  
Chippeway joins the Mississippi; and from thence eastward five days travel, amounting  
to twenty English miles a day; and from thence north six days travel, amounting to forty Eng-  
lish miles per day; and from thence to the Falls of St. Anthony, in a direct straight line."

## SPANGLER CEMETERY

Botetourt County, VA

Route 43, on the property of Mr. Charles Mullins.  
The cemetery is on a hill and in very sad condition.

Recorded 4, March 1992 by Charles & Ruth G. Hale

<b>Spangler, Sidney B.</b>	Feb. 9, 1880 - Feb. 2, 1948

321 GENERAL VIEW OF OUISCONSIN TERRITORY.

with marked ingratitide, and not only failed in obtaining remuneration for his services, but his charts and papers, which he had previously submitted to government, were withheld from him, so that he was prevented from publishing his work until nearly ten years afterwards. There can be little doubt that the principal if not the sole reason, why Captain Carver was disappointed in the support he expected from the British government for his services, was owing to the peculiar condition of the American colonies and Great Britain. The work of Carver presented a favorable view of the country and its future resources, and it did not accord with the designs of the ministry of that day to give it sanction or currency. The most modern and accurate account of this country, is to be found in Colonel Long's Second Expedition.

The military posts are Fort Brady, at the Sault de St. Mary; Fort Howard, at Green Bay; Fort Winnebago, at the Portage, between the Fox and Ouisconsin rivers; and Fort Crawford, at the junction of the Mississippi and Ouisconsin, below and adjoining the village of Prairie du Chien, all of which are garrisoned by troops belonging to the United States' army. A bill is now before the Congress of the United States, having for its object the admission of Michigan Proper into the Union, as a new State, and the organization of the region described above into a distinct territorial government. In the selection of a general name, for which Ouisconsin and Huron have both been proposed, the former will probably be adopted, in consequence of being the name of its principal river. The counties in this territory are Brown, Chippewa, Crawford, Iron, and Menominee, a part of which is on the eastern side of Lake Michigan. (For the population of these, see *Michigan*.)

Our Society has purchased this map and placed it in the Virginia Room. The map is very large.

## CONSULTING INDEX.

To ascertain the position of any place mentioned in the Index, observe the letters annexed to it in the fifth column: then find the corresponding letters on the top or bottom and sides of the Map; from these letters pass the eye along the ranges due north or south and east or west, until they intersect. In the square in which they meet, the place sought for will be found.

*Abbreviations.*—Maine, Me.; New Hampshire, N. H.; Vermont, Vt.; Massachusetts, Mas.; Rhode Island, R. I.; Connecticut, Ct.; New York, N. Y.; New Jersey, N. J.; Pennsylvania, Pa.; Delaware, Del.; Maryland, Md.; Virginia, Va.; North Carolina, N. C.; South Carolina, S. C.; Georgia, Geo.; Alabama, Al.; Mississippi, Mi.; Louisian, La.; Tennessee, Ten.; Kentucky, Ken.; Ohio, O.; Indiana, In.; Illinois, Il.; Missouri, Mo.; District of Columbia, D. C.; Arkansas Territory, A. T.; Florida Territory, F. T.; Michigan Territory, M. T.; Missouri Territory, Mo. T.; Court House, C. H.; Post Office, P. O.; Fort, Ft.; Port and Point, Pt.; Mount, Mt.; Township, tsh.; County Town, c. t.; Town, t.

The first column of the Index contains the names of places;—the second column designates the class to which they belong;—the third column shows the counties in which towns, &c. are situated;—the fourth column points out the States in which counties, towns, &c., are placed;—the fifth column contains the reference letters, which correspond with the letters on the top and bottom and sides of the Map;—the sixth column contains the population of counties, towns, &c., according to the census of 1830;—the seventh column contains the distances in miles of townships and towns from Washington City;—and the eighth column designates the distances from townships, towns, &c., to the capitals of their respective States.

The single letters in the first column, attached to some of the names, signify that those places are represented on the Map by the letters attached to them: this occurs only in those cases where the space on the Map was not sufficient to admit of the name being written at length. The capital letters represent townships, and the small letters stand for towns.

**LEGISLATIVE PETITION  
for GILES COUNTY, VIRGINIA**

To the Honorable the General Assembly of Virginia ----- The petition of the undersigned citizens of Giles, Wythe, & Smith, would respectfully represent to your honorable body, that the inhabitants living along the road leading from the Plaster Banks in Smythe County, eastwardly as far as John Kirks on Kimberland, or Thomas Shannon's on Walkers Creek, in Giles County, have for a number of years past, been subjected to an unreasonable share of labour in Keeping the Same in repair, owing to the immense travel over it by waggons laden with Plaster and Salt, for the Counties of Giles, Mercer, Monroe, Greenbrier, Botetourt and Montgomery. That the Consumption of these articles is annually increasing, and the persons along the line of the road aforesaid, cannot, without heavy pecuniary burthens, keep the same in repair.

We therefore pray that your honorable body take the subject under consideration, and present such relief as may be desired adequate to the demand of Justice in behalf of the citizens living along said road, and promote the agricultural interest of a larger portion of the citizens in the above named counties -- To this and we would respectfully suggest than an appropriation of \$      Dollars be made for the purpose of opening the said road - and that a tax not exceeding \$2. may be authorised to be collected of each waggon passing the same laden with plaster or salt - to be appropriated in like manner. The improvements to commenced at the Plaster Bank & progress Eastwardly till the whole be complete. That an Engineer be appointed to locate the Same upon Suitable ground, at a grade not exceeding five degrees -----

Mary Barton Bailey, 5750 West 69th St., Overland Park, KS 66204 913 677 1429 or on line TINNETTE@aol.com

95-91: Seek info on any McCoy fams which lived in SW VA bef 1810, especially those with first names: Thomas, Daniel, Hugh, John & James. Joe Slattery, 605 Balmoral, Shreveport, LA 71106

\*\*\*\*\*  
TO UNMARRIED LADIES

THE SUBSCRIBER a Widower being desirous once more to enter into the state of Matrimony, takes this method of letting himself & inclinations be known, and also of becoming acquainted with one whom he hopes would make him happy. He is well convinced (having had a sufficient trial) that the married state is the only one calculated to make him completely happy; and for the information of those ladies who should feel disposed to favor his views, he will state what his circumstances are: He is a farmer, 35 years of age, with four small children, and has property amounting to about two thousand dollars or upwards.

The lady he would desire he wishes should posses the following qualifications:--1st she must be moral; her morality may amount to religion. 2nd, she must posses at least as much property as himself. He will not object to any Sect or Church, but will accept of any from the mild and moral quaker to the zealous methodist, between the ages of 20 and 35.

All letters addressed to A F, Strasburg, Va. or to the editor of the Herald of the Valley will be attended to with the greatest secrecy.

As he is in earnest he does not wish to be trifled with, or have any thing to say on the subject to any whom he has not addressed, or should not feel disposed to change their situations

**GENEALOGICAL QUERIES:** Each member is entitled to one (1) to three (3) free **60 word** query (does not include your name and address) per issue as space permits. The typist will not compose queries for you, so please make your query as clear and specific as possible so that others can understand them and have a chance to help you. Each query should include name, dates, and location to identify the problem. Please CAPITALIZE surnames - is it Mary Smith JONES (single) or Mary SMITH JONES (maiden & married name). Do not abbreviate, we will. If not typed, please PRINT — some written queries we have not been able to read. Queries for non-members are 5¢ (cents) per word not including your name and address. Queries must be received prior to the 1st of the month preceding publication.

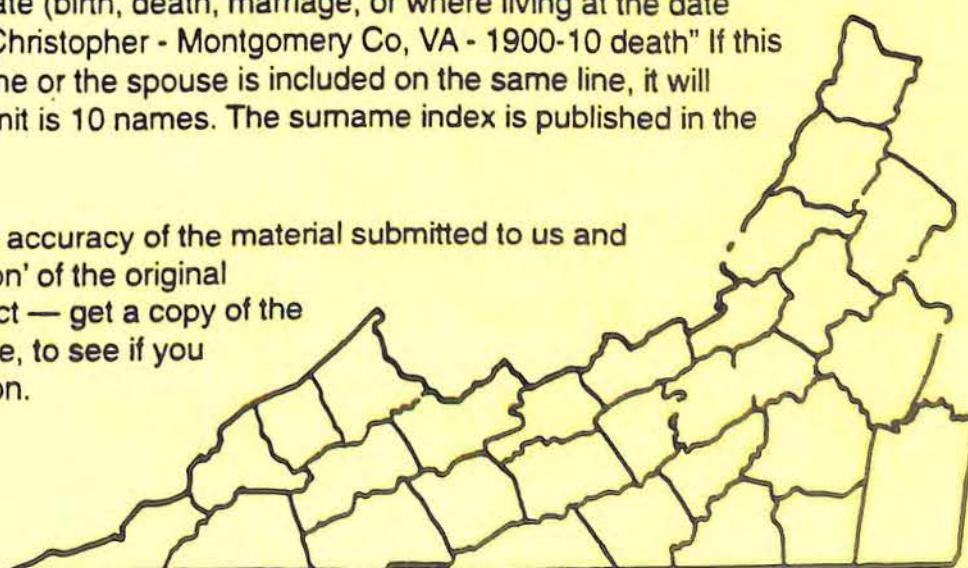

**FAMILY REUNION, PUBLICATION OF BOOK, NEWSLETTERS, ETC.:**

Limited to 60 words, not including your name and address. We cannot edit a full page down to 60 words — so send the notice as you want it printed. These notices will be put in as space permits. Members will be given priority in publishing these notices.

**MATERIAL FOR PUBLICATION:** We welcome articles, records, etc. for publications. The material when received may not be used in following issue, but in a future issue. If a large amount of material is sent, it may take a while to publish because we try to have a variety of material in each issue. (1) **READY FOR PUBLICATION** (*which the editor loves*). Please type using a carbon ribbon or dark ribbon and CLEAN KEYS. Use 8 1/2" x 11" paper, single space, with a minimum margin on ALL sides of 1 inch. Center your title. Be sure to include your name, address, and date (year) on the document. If not typed for publication, please PRINT PLAINLY — some articles that have been hand written we have not been able to read, or those that are typed with all caps are difficult to read. PLEASE read material over before mailing and double check all dates. (2) **GIVE SOURCE OF MATERIAL**. Original documents — where found, type of record, page number, etc., or, if known, who now has the document in their possession. We CANNOT PRINT material from printed sources unless we have written permission from the publisher, which you MUST FURNISH. We must have source of material to give credit to the person who has done the work. (3) **DEADLINE** for submitting material should be at least two months before date of publication. (4) **PLEASE** do not send material that you want returned — send a photocopy to us instead. That way it won't get lost, as letters do get misplaced, when passed from one person to another.

**SURNAME INDEX:** Information will include name (given and surname), place (location at time of date), Date (birth, death, marriage, or where living at the date given). "WASKEY, William Christopher - Montgomery Co, VA - 1900-10 death" If this data takes more than one line or the spouse is included on the same line, it will count as two names. The limit is 10 names. The surname index is published in the August issue.
