Working Together to Help Others

Since starting HVI three years ago we have had an increasing awareness and participation by the students in the decision making process at Hidden Valley. This is being accepted by the students as a responsibility and accepted by the administration as a right of the students primarily because of the excellent participation of our total student body.

The administrations agreement of accepting the students in the decision making process is in our opinions a high complement since we do not relinquish this process to those who so not take it seriously.

Lloyd D. Farthing

Mr. Lloyd Farthing
Principal

The student body is better than recent student bodies, the discipline is better and the school spirit is good. All these things are due to the leadership of the 8th grade and by the contributions made by the 6th and 7th graders.

David S. Price

Mr. David Price, Assistant Principal

This is the best student body we have had since the schools beginning. School discipline has improved each year, and this year has had the students best cooperation with the faculty and administration.

School spirit needs improvement for the support of our school and the school's athletics. If this is accomplished next year it will be the best year for Hidden Valley.

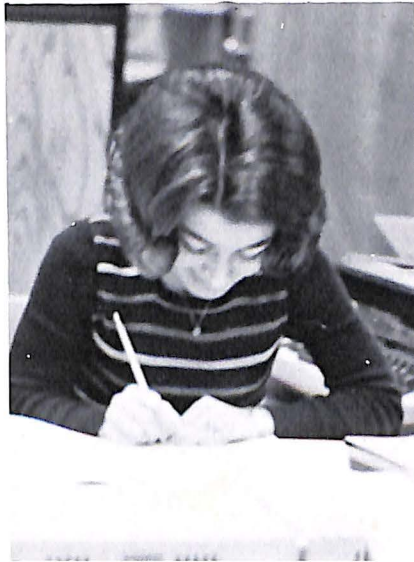

W. Murphy Scott

Mr. W. Murphy Scott, Assistant Principal
