Published by the Students
North Cross School
Roanoke, Virginia
Volume IX

Once in the old, old times of
marvelous Greece
There was a box which belonged
to Epimetheus and Pandora.
The box held many things—
Hope was hidden under all the others.

After seeing Hope, Pandora cried,
 "Your wings are colored like the rainbow!
 How very beautiful."
 "Yes, they are like the rainbow,"
 said Hope,
 "because, glad as my nature is,
 I am partly made of tears as well as smiles."

And Hope said, "I will stay with you as long as you need me—and that will be as long as you live in the world—I promise never to desert you."

**In 1882 Edison had
a great idea.**

**And it wasn't the
electric light.**

The whole idea of investor-ownership of electric light and power companies began when Thomas A. Edison and a group of investors financed his first power plant more than 80 years ago.

Since then, investor-owned companies like ours have become an integral part of America's Free Enterprise system. That explains why today we have at our fingertips more electric power than any other country in the world.

And it's this same Free Enterprise system that puts at *your* fingertips greater opportunity, greater expectation for success than can be hoped for by any other young people in the world.
